June 24, 2008

***Honorable Mayor, Councilmembers and the Gilbert Community:***

I respectfully transmit the budget for Gilbert for the July 1, 2008 to June 30, 2009 fiscal year as required by the Code of Gilbert. This represents the annual financial plan and allocation of public resources for the coming year.

The adopted expenditure budget totals approximately \$936.7 million which includes \$254.8 million (27%) for operating budgets and \$418.8 million (45%) for capital budgets.

The FY 2009 budget also reflects a net decrease in 3.37 full time equivalent authorized positions as compared to the FY 2008 Adopted Budget. Changes in authorized positions include a reduction of 19.5 positions in Development Services Department (General Fund) resulting from decreased workloads, offset by an increase in 8.5 full time equivalent positions in the Fire Department (General Fund) as a result of mid year hires in FY 2008, and an increase in 7.0 full time equivalent positions in the Water Department (Water Fund) in anticipation of the opening of the South Water Treatment Plant the second half of FY 2009.

---

### **ECONOMIC ENVIRONMENT AND ASSUMPTIONS**

---

This year's budget preparation was particularly challenging. The economic slowdown which had been affecting portions of the Phoenix metropolitan area came to Gilbert in a significant way starting in January 2008. While there had been a general downward trend in new single family starts and completions, in January Gilbert issued the fewest single family permits since July, 1986. Further, the economic growth in the employment and retail segments also slowed, creating the need for several briefings of the Council and staff recommendations for immediate changes in the FY 2008 year, as well as the forecast for FY 2009. Gilbert was in the unenviable but fortunate position of having new retail dollars coming available to offset declines in other sales tax generating segments of the local economy. However, the use of these revenues as replacement revenue rather than additional revenue has impacted our forecasts and plans.

This budget forecast assumes the current downturn in both the regional and national economies will continue for the foreseeable future. *Arizona's Economy, June 2008*, published by the ASU Eller College of Management, states "*While analysts debate whether malaise in the U.S. economy will last long enough, be deep enough, and widespread enough to qualify as recession, there is little doubt that Arizona's economy already has passed these tests. Homebuilding is in one of the sharpest corrections on record, consumers are in full retreat, and measure after measure of economic activity is at recessionary levels. The questions now are "how long and how bad?"* The article continues, "*The credit crunch which began in August of 2007 is the worst since the 1990-91 recession, and it is still building. The economy can't mount a recovery until the crunch ends, and the consensus is that we are only half way through.*"

While Gilbert has experienced rapid growth in residential development over the last decade, this budget is based upon an average of 50 new single family residential homes per month. This estimate is well off Gilbert's historical averages of between 250-350 new single family residential homes per month. Given the current instability in the housing sector it is anticipated that population will remain constant until the housing market stabilizes. In addition, while non-residential development still remains active, the timing and build out of Gilbert's commercial centers has been delayed as a result of the lagging national economy.

The development of our major retail centers continues following the opening of the Santan Loop 202 Freeway in June 2006, albeit at a slower pace than previously anticipated. Two Vestar Power Centers showcase over 1.4 million square feet in combined retail space at the eastern and western freeway gateways have been open for nearly three years and are continuing to expand both retail square footage and sales volume. Westcor Development Partners completed the first phase of the SanTan Regional mall in October 2007. This is in addition to the SanTan Marketplace Power Center which already includes a Super Walmart, Costco, a newly opened Sam's Club and several other big box retailers. Work continues on the development of Gilbert's first retail auto complex, Gilbert Santan Motorplex, a 128 acre site, which featured the opening of its first dealership, Santan Ford in the spring of 2007, followed by Henry Brown GMC in the fall of 2007, and most recently the opening of SanTan Hyundai, and Carmax in the spring of 2008. All of these sales tax generating businesses have been anticipated in our long term financial plans and are essential in maintaining service levels in Gilbert.

More critically, in the coming five year period, we anticipate the development and opening of several million of square feet of additional non-residential uses including office, industrial and employment centers. Increased commercial development is a new component to the service demand model, and this budget, along with our five year financial plan, attempts to balance available and forecast resources with the short and long term service demands of the community.

Local sales tax is anticipated to support approximately 42% of General Fund expenditures in the coming year. Local sales tax is forecast to be generated from 54% retail, 9% construction, and all other sources providing 37%. The five-year financial plan anticipates that sales tax generated from the retail sector will continue to grow and provided significant support to General Fund expenses, and replace construction sales tax revenue as we approach build out in the next fifteen to twenty years.

Single-family residential construction has historically been the significant driver of service workload. Recently, however, residential workload has decreased significantly as a result of declines in the local and regional housing construction market. A number of non-residential projects are generating activity, however, their scope and scale is also declining as a result of the lagging economy. The work plan for FY 2009 includes, on average, 50 single-family permits per month with continuing slower levels from non-residential development activity. Gilbert is forecast to issue 1,622 single-family residential permits in FY 2008. Total permit value of all new residential and commercial construction in FY 2008, is forecast to be \$554.2 million, compared to \$825.5 million in FY 2007.

Population growth continues to be a major factor in planning for services. The growth in Gilbert's population has historically outpaced that of many communities in Arizona. Because state shared revenues are based upon Gilbert's population at the time of a census as a percent of the whole of the state it is essential that the population estimates are as up to date as possible. In September of 2005, the US Department of Census established through a Special Census, that Gilbert's population was 173,072. The Special Census allowed for the reallocation of state shared revenues beginning in FY 2007 based upon the revised population, not the 2000 population of 109,697. Gilbert is already participating in the planning for the 2010 Census, at which time our population is estimated to be 210,000.

While retail opportunities in Gilbert continue to improve, there has been and continues to be an imbalance between current sales tax revenue and the ability to increase staffing levels necessary to meet demands for services. The short term need to use new revenues to replace revenue shortfalls from state shared sales tax and local sales tax base does not improve this imbalance.

---

**BUDGET PROCESS**

---

The Code of Gilbert requires the Manager to develop and present an annual balanced budget to the Council. The budget is developed using a shared leadership collaborative process. The Management Team, consisting of the Manager's staff and Department Directors, reviews financial projections and budget requests given the boundaries and priorities established by the Council. A balanced preliminary budget is then presented to the Council for consideration and approval.

Gilbert continues to develop and apply a long-term decision making process which recognizes the consequences of funding decisions over a five year time frame, and matches decisions within forecast resources. While budgets are adopted in an annual basis, the consequences of funding additional personnel or capital projects are incorporated and evaluated in the long term planning model, not just the annual budget balancing review.

This annual financial plan strives to maintain the service standards established by the Council for Police, Fire, and Parks and Recreation, with the maintenance of a minimum staffing of 1.1 police sworn personnel per thousand population through FY 2009; maintaining a 4.0 minute response time for the Fire Department; and implementing Parks and Recreation service standards to transition from the traditional service model of design-build-own facilities and services to one which recognizes the presence of private facilities and service providers which can be utilized to meet the community leisure needs in a partner-focused relationship.

The following general budget boundaries were applied in the FY 2009 budget process:

- No change in sales tax rate (1.5%);
- No change in property tax for debt service repayment (\$1.15 per \$100);
- Base budgets were prepared through the use of a resource constrained model, meaning that budgets were to be prepared within currently allocated resources, rather than automatically trying to maintain service responses that would require additional resources;
- Departments were requested to review operations and institute process efficiencies, cost cutting programs, and revenue enhancement opportunities;
- Travel, training, and other discretionary expenses were limited and focused on mission critical activities;
- An allowance of 3% for market range salary adjustments and 0% for merit pay (movement through the salary range) is included in the budget. (*Action to date by Council on the Pay Plan included implementation of a 2% increase for salaries effective July 1, 2008, with further review on the pay plan anticipated midway through the fiscal year.*);
- Health plan benefits remained unchanged, however, cost sharing changes were implemented, including modifications to premium contribution rates for both single and family coverage at 25% of the total premium as well as increasing copays for certain benefits;
- Maintenance of existing service levels where existing resources allow;
- Maintenance of an undesignated fund balance of 9% for General Fund operating expenditures in FY 2009, and in excess of 10% for FY 2010 and beyond;

- Equipment Replacement Fund for the General Fund was modified from a fully funded plan to one that maintains a minimum balance for current year replacements to be fully funded;
- Equipment Replacement Funds for the Water, Wastewater, Streets, and Solid Waste Funds remain fully funded;
- Infrastructure Repair and Replacement Funds for Water and Wastewater facilities are funded based upon the current annual depreciated value of the respective systems;
- Street operations include an allocation of \$7.2 million for continued street maintenance activities;
- Water operations include a rate increase to recover operating costs and maintenance of a long term repair and replacement fund;
- Wastewater operations include a rate increase to recover operating costs and maintenance of a long term repair and replacement fund;
- Residential Solid Waste Operations include a rate increase to recover operating costs and maintenance of a long term repair and replacement fund.

The Management Team met and finalized the budget recommendation. Because of the dynamic and constantly changing economic conditions, the Council met several times to review the recommended boundaries and staff proposed changes to maintain a balanced budget. This budget represents a consensus document developed by the Management Team and approved by Council.

## REVENUES

The sources of funds included in the budget totals \$990.3 million, with the major components reflected in the table below:

	Actual FY 2007	Budget FY 2008	Projected FY 2008	Budget FY 2009
GENERAL FUND	\$ 123,380,000	\$ 134,738,070	\$ 125,048,850	\$ 120,318,520

CARRY OVER FUNDS				\$ 202,352,985
<b>TOTAL SOURCES</b>				<b>\$ 1,192,633,825</b>

A brief description of the activities and changes in each area follows:

***General Fund***

General Fund revenues decreased by \$14.4 million or 10.7%. While a few revenue sources increased, decreases in projected local sales tax from construction sources, state shared sales taxes due to declining receipts, and Development Services revenues have offset any increases which accounts for the decline in total revenue.

***Enterprise Operations***

Gilbert operates Water, Wastewater, and Solid Waste services as enterprise operations. In these areas, the user fees and charges for service are structured to assure that all direct and indirect costs are recovered. Revenue growth in these funds is attributable to expanding customer bases and rate increases.

***Internal Services***

The Internal Service operations include Equipment Maintenance, Copy and Printing services, and the Self Insured Health Fund. These funds are structured to recover 100% of their costs through charges to user departments.

***Streets Fund***

The Streets Fund is reliant on state shared fuel tax and vehicle license tax revenues to fund operations. Total revenues from these two sources are expected to remain unchanged with total revenues from these sources forecast at \$20.0 million in FY 2009 compared to \$19.9 million in FY 2008. As a result of the recent increase in the cost of fuel, the overall fuel consumption trend is down, which will have a negative affect on fuel tax revenues which are set per gallon, and not based upon price of fuel. Until there is more stability with respect to the current and future cost of fuel, revenues in this fund will be subject to change.

***Special Revenue***

Special revenue includes Grant Funds, System Development Fees, and Special Districts.

System Development Fee (SDF) revenues are planned to decrease from \$68.8 million in FY 2008 to \$21.5 million in FY 2009, due to decreased development activity. Special Districts include secondary property tax receipts, through levies for the Street Light Improvement and Parkway Maintenance Improvement Districts. Those levies are established annually by separate Resolution of the Council to meet the maintenance and operating costs of those area specific districts. Grants are forecast to increase by \$1.3 million from \$2.4 million to \$3.7 million in FY 2009.

***Capital Improvements***

This revenue includes General Obligation and Municipal Property Corporation bond proceeds, transfers from System Development Fees, and any grants and contributions for the construction of major public infrastructure. The most significant portion of these revenues are \$190,000,000 in bond proceeds for street improvements and acquisition of park land. The water improvements include some additional wells and reservoirs, but the largest project is the South Water Treatment Plant presently under construction and anticipated for completion in the spring of 2009. This Plant is a joint effort with the City of Chandler, with each partner paying half the capital and half the operating costs of the facility.

Another major element of Capital Improvements is a reservation for Improvement Districts. This is budgeted on a contingency basis in the event a developer wishes to use this public financing mechanism to construct public infrastructure for future development. Once debt is issued for

Improvement Districts it is reported under the Debt Service section of the budget and repaid through collection of special assessments against the benefited property owners. There is presently one Improvement District in the design and construction process.

## **Debt Service**

The most significant source of revenue in this area is property taxes (\$50.0 million) for the repayment of voter approved General Obligation bond debt. There are also transfer revenues from the Streets Fund for Highway User Revenue bond repayments, from the General Fund and System Development Fee Funds for Municipal Property Corporation bond repayments. As noted earlier, there are also Improvement District debt assessment collections. There is presently one improvement district repaid semi-annually from assessments to the benefited property owners.

## **Trust Accounts**

The only account with revenues is the Volunteer Fire Pension Fund, which relies on investment income to meet the needs of the remaining pensioner.

*The **Financial Overview** section provides additional detailed information on planned revenues.*

## **EXPENDITURES**

The adopted budget expenditures total \$936.7 million. The budget includes \$254.7 million to support daily operations and services with the remaining \$682.0 million reflects expenditures for debt, capital projects, maintenance districts, grants, and trust accounts.

The following table shows expenses by fund:

	<b>Actual FY 2007</b>	<b>Budget FY 2008</b>	<b>Projected FY 2008</b>	<b>Budget FY 2009</b>
GENERAL FUND	\$ 111,982,535	\$ 143,573,020	\$ 130,379,813	\$ 124,568,360

<b>GRAND TOTAL EXPENSES</b>	<b>\$ 607,445,274</b>	<b>\$ 885,330,850</b>	<b>\$ 739,226,428</b>	<b>\$ 936,740,950</b>

## **General Fund**

General Fund expenditures are planned to decrease by \$19.0 million compared to the FY 2008 Adopted Budget. Decreases are a result of certain one-time capital expenses in FY 2008, and general expenditure reductions including reductions in staffing where workloads dictate. Major decreases are attributable as follows: Support Services \$1.4 million, Development Services \$6.6 million due to decreased workload and reductions in force, Police \$1.3 million, Fire \$6.6 million due to completion of two replacement fire stations in FY 2008, and Community Services \$4.6 million again due to capital project completions.

***Enterprise Operations***

Total expenditures for the Water, Wastewater and Solid Waste funds are expected to increase by approximately \$8.6 million, based upon anticipated expenses to maintain current services and maintenance requirements of the respective systems.

***Internal Services***

Total expenditures related to Fleet Maintenance, Copy Services, and the Health Insurance are expected to increase by approximately \$2.0 million. The increase is primarily attributable to the ongoing costs of the Gilbert Self Insured Health Fund.

***Streets Fund***

Total expenses are budgeted at \$25.2 million, a slight decrease of \$200,000 over FY 2008. Expenses in this fund support the maintenance of the public road network. In addition, there are certain road improvement projects funded through the Streets Fund, in addition to those that are funded through bonds or being built by developers and subsequently dedicated to Gilbert.

***Special Revenue***

The most significant area of expense is the transfers from the System Development Fee Funds to Capital Projects for pay for those growth related capital projects, with the FY 2009 expenses estimated at \$3.2 million, down from the prior year's \$14.9 million. Grants are forecast to increase to \$2.1 million, up from \$1.2 million in FY 2008. Special Districts for Street Lights and Parkway Maintenance are anticipated to increase to \$2.5 million from \$1.7 million in FY 2008.

***Capital Improvements***

Expenditures are budgeted to increase from \$380.1 million in FY 2008 to \$418.8 million in FY 2009. Major Capital Project expenditures anticipated in FY 2009, include:

- South Water Treatment Plant Completion
- South Area Reclaimed Water Infrastructure
- Williams Field Road
- Special Events Center – Land Acquisition
- Chandler Heights Basin – Phase I
- Vaughn Avenue Parking Structure
- Power and Pecos Union Pacific RR Crossing
- Water Rights Acquisition
- Val Vista – Germann to Queen Creek

***Debt Service***

These expenses are to repay principal, interest and related costs for debt issued by the community. This includes voter approved General Obligation Bonds at \$34.9 million, Municipal Property Corporation Bonds at \$150 million and Improvement District Bonds at \$354,000.

New debt issues are anticipated in early FY 2009 for the construction of various roadway improvements and land purchases within Gilbert. Municipal Property Corporation Bonds are also possible for park land acquisitions.

***Trust Accounts***

These expenses relate to the payment of benefits to the remaining Volunteer Firefighter pensioner.

The summary financial section which follows this Message contains additional level of explanation of expenditures. The detail section of this document also contains further documentation of the performance and expenditure of funds in major program areas.

The **Financial Overview** section provides additional information and detail on expenditures.

## PERSONNEL

Personnel services represents 39% of total operating budget expenses for FY 2009.

The compensation system for Gilbert was established in 2002 with a comprehensive classification and compensation study. The system was modified by the establishment of a results based compensation program in FY 2004. Additional changes in FY 2006 included further improvements to the system to address wage compaction issues where persons were not moving through the range, compared to newly hired persons. In FY 2007, Gilbert's compensation program was modified to adjust supervisory range placements ensuring compensation over that of direct subordinate pay. In FY 2008, police salaries included a mid-year adjustment, in an attempt to address discrepancies within the area competitive market for starting and maximum wages.

The FY 2009 change to the compensation programs is totally market based to increase minimum and maximum wages by 3%. No funds are provided for movement through the range for FY 2009. As previously noted, Council only approved a modification to the Pay Plan of 2% effective July 1, 2008, with a direction to review the status of the budget at mid year.

The following table shows the total full-time equivalent breakout by program area:

### **FUNDING CHALLENGES**

The challenge to balance one time revenues generated by growth with the ongoing service demands that growth creates continues.

Retail sales tax revenue supports a significant portion of the budget making diversification and expansion of this revenue source a critical component of Gilbert's future. Sales tax continues to be a highly volatile revenue source to pay for ongoing expenditures as has been demonstrated in this year's budget process. Escalating fuel costs and cost of living demands are immediately reflected in retail and restaurant activity in the local economy, and Gilbert is no exception. As previously discussed this additional revenue is serving to replace other development related revenue sources in our current plan. This will improve over time, but it demonstrates the risk of reliance on local sales tax and state shared sales tax to fund ongoing operating and maintenance requirements.

The Council has been proactive in establishing System Development Fees to pay for infrastructure related to growth of the community. These fees, however, only pay for capital construction, not for ongoing operation and maintenance costs.

Citizens moving to Gilbert have service expectations and experiences from other communities which have different funding sources and different priorities than those chosen by Gilbert. A Community Working Group in 2000 analyzed the predicament before recommending the last sales tax increase, and fairly stated this dilemma in their finding that Gilbert needed to focus on its core services, and wait for maturity to meet other service needs or interests.

### **LOOKING AHEAD**

Two years ago the community witnessed the completion of the Santan Loop 202 Freeway through Gilbert. The project represented the completion of a 20 year vision for the community. The continued development of the power centers, retail centers, auto-mall, and employment and offices along this corridor are vital to our future. Our future financial model anticipates significant sales tax generation opportunities along the freeway corridor to achieve our goal of sales tax paying for ongoing services.

To effectively and efficiently meet the reasonable service expectations of our customers, the organization remains committed to the principles of Continuous Quality Improvement (CQI). Specific training is provided for new and existing employees to further implement these principles and processes to move toward the ultimate goal of CQI being "the way we do business". The program is considered as one of the major contributing factors why staff has been able to keep pace with the growth of the community and to manage the services that the growing population seeks with a comparatively low employee to population ratio. The results and successes of this effort can be tracked on an ongoing basis on our Website, [www.ci.gilbert.az.us](http://www.ci.gilbert.az.us).

#### APPRECIATION

---

The Council participation in identifying, developing and confirming goals and objectives, as well as understanding the complex and competing requirements of this rapidly changing organization is appreciated. The additional meetings required to clearly identify funding and program priorities required more time and effort this year than previous budgets.

Departments spent many hours developing their operating plans, including goals, objectives and financial requirements. Without their continued dedication, this process and the improvement of the budget document to be a guide in our management of services to the community would not be possible.

The Management Team continues to develop their understanding of the roles and responsibilities we share to the organization and community, and not just individual departmental interests.

The recognition by the Government Finance Officers of the United States and Canada of this document as a communication tool validates its purpose and effectiveness.

The continued commitment by Marc Skocypec, Laura Lorenzen, Gloria Moore, and Diane Archer to provide an accurate, effective document is also acknowledged and deeply appreciated.

Respectfully,

  
George A. Pettit  
Manager

## WHAT IS THE BUDGET?

The budget sets forth a strategic resource allocation plan that is aligned with community goals, preferences and needs. The budget is a policy document, financial plan, operations guide, and communication device.

Through the budget, Gilbert demonstrates its accountability to its residents and customers. To provide the maximum accountability this section provides the reader with some basic understanding of the components of the budget document and what is included in each of these components.

## ORGANIZATION OF THE BUDGET DOCUMENT

The budget document includes seven major areas:

1. The introduction which provides the Manager's budget message along with overview information about Gilbert including the organization, vision, mission and values, strategic goals, Gilbert facts, fund structure, budget process and policy statements.
2. The financial overview illustrates the total financial picture of Gilbert, including projected fund balances, five year fund forecasts, the sources and uses of funds, and property tax information.
3. The operating fund tabs – General, Enterprise, Streets - include information on all Business Units within that Fund. Each Operating Fund section is organized in the same manner with a Business Unit page and a page for each Department within the Business Unit.
4. The non-operating fund tabs – Internal Service, Special Revenue and Replacement – include information at the fund level.
5. The Capital Improvement section includes information regarding the current year capital projects and the projected operating costs for the projects currently under construction.
6. The Debt section provides an overview of Gilbert's types of debt issued, debt capacity and debt outstanding.
7. The appendix includes a detail listing of authorized positions, the approved capital outlay list and a glossary including acronyms.

### Manager's Budget Message

The Manager's budget message is a transmittal letter introducing the budget. The message outlines the assumptions used in budget development such as economy, revenue constraints, and Council priorities. Also included is an overview of the budget development process, the major changes and challenges facing the organization.

### Financial Overview

The financial overview begins with the total source and use graphics. These graphs illustrate which funds receive what percent of the revenue compared to what percent is spent by the same funds.

The fund balance pages provide a look at the fund level of the starting balances, revenues, expenditures and projected ending fund balance. Gilbert balances the budget using all available resources which includes the anticipated beginning fund balance from the prior year.

The revenue summary, revenue detail, expenditure summary and expenditure detail provide the reader with a total view of all sources and uses with an historic perspective from three years prior to the budget year.

The revenue source section illustrates the major funding sources by type including assumptions, and anticipated future growth.

The property tax page includes all the property tax rates for each taxing jurisdiction within Gilbert. Gilbert includes three school districts so the taxes are shown for each of the school districts.

### **Fund Tabs**

The first page in each Fund tab is an overview of the Fund(s) within that section including a brief explanation of the funds purpose and a summary financial outlook for the funds included. The next page is a business unit with a description of the Business Unit, the goals, an organization chart, performance measures and summary personnel and financial information. Following the Business Unit are the pages for the Departments within the Business Unit. For example, the Business Unit of Development Services includes Permit and Plan Review Services, Inspection and Compliance Services, Planning and Development, and Business Development.

The Department summaries include the following components:

**Purpose Statement:** The purpose statement explains why the Department exists and provides a list of services provided.

**Accomplishments:** This section communicates success and describes what improvements and actions where completed during the prior fiscal year.

**Objectives:** Objectives communicate what is going to be accomplished during the budget year with the resources available. The objectives align with the Business Unit goals and with the Strategic Goals of the entire organization.

**Budget Notes:** Any noteworthy changes are explained in this section.

**Performance/Activity Measures:** Gilbert strives for improvement in the area of measuring if what we do is the right thing at the right cost. Established standards are reported in Departments to ascertain if staff is meeting the standards set. Legal requirements are reported to insure our continue compliance with regulatory action. Cost per action is reported in Departments to monitor efficiency.

**Personnel by Activity:** The total staffing by Division within the Department is shown for the prior three fiscal years and for the budget year.

**Expenses by Division:** Total expenses by Division within the Department are shown for the prior three fiscal years and the budget year. The expenses include transfers out.

**Expenses by Category:** The total for the Department is divided into the categories of personnel, supplies and contractual, capital outlay and transfers out to provide an overview of the allocation of resources by type.

**Operating Results:** The operating results show the net of revenues less expenditures. This view provides the readers with an understanding of how much of the costs are supported by Department generated revenue and how much is supported by general revenues such as sales tax and state shared revenue.

**Graph:** The graphs are unique to each Department in an effort to show a relevant efficiency measure. The expenses used in the graphs do not include transfers out. For graphs based on FTE, the total FTE for Gilbert is used unless stated otherwise.

### **Replacement Funds**

This area of the budget is dedicated to an explanation of Gilbert's replacement funds. Replacement funds exist for each operating fund and an annual allocation is transferred from the operating fund to the replacement fund to ensure future financing capacity for replacement rolling stock, equipment and select infrastructure.

### **Capital Improvements**

Each year Gilbert updates the Capital Improvement Plan and Program (CIP). This document describes all the known capital projects with a dollar value greater than \$100,000. Each project must be approved by Council before the actual work commences. The projected current year transactions are included the budget document.

This section also includes estimated operating costs. The CIP is an integral part of the budget process in that required funding transfers for proposed projects are included along with anticipated operating costs in the projections for funding capacity.

### **Debt**

Gilbert issues debt to finance buildings, recreation facilities and infrastructure construction. The debt section explains the types of bonds issued, the legal criteria, debt limits and capacity, and outstanding debt.

### **Appendix**

Personnel Detail: Every staff position is approved by the Council and is included in the personnel detail. Historic information is included for the prior three years.

Capital Outlay: Items with a useful life greater than two years and a purchase price greater than \$10,000 are individually approved and included in this section.

Glossary/Acronyms: Many of the terms used in government are unique. In addition, the budget includes many different types of business areas. The unique terms are described in the glossary.

If the reader has any questions regarding the document, please call 480-503-6868 or e-mail [budget@ci.gilbert.az.us](mailto:budget@ci.gilbert.az.us).

The Government Finance Officers Association of the United States and Canada presented an award for Distinguished Budget Presentation to the Town of Gilbert for its annual budget for the fiscal year beginning July 1, 2007.

In order to receive this award, a governmental unit must publish a budget document that meets program criteria as a policy document, as an operations guide, as a financial plan and as a communication device.

The award is valid for a period of one year only. We believe our current budget continues to conform to program requirements, and we are submitting it to determine eligibility for another award.

The Town was incorporated July 6, 1920 and operates under the Council-Manager form of government. Six council members are elected at large to four-year staggered terms. The Mayor is a member of the Council, directly elected by the voters for a four-year term. The Mayor is a chief executive officer of the Town and chairperson of the Council. The Town Manager is appointed by the Council to administer through nine department directors, three executive staff, and approximately 1,222 employees.

## OUR CORPORATE VISION

Our vision is for Gilbert employees to be recognized by all we serve and work with for being honest, caring individuals:

- who work hard and work smart;
- who are worthy of public trust and are worthy of the respect and trust of fellow employees;
- who provide prompt and courteous service on a cost effective basis;
- who are empowered to resolve problems quickly;
- who work in harmony with the goals and policies of their elected leaders and support the Community's vision for the future;
- who do their best to satisfy every reasonable request for assistance, always striving for better ways to serve.

## OUR CORPORATE MISSION

To provide superior municipal services which enhance quality of life, foster positive business relations, and maintain a safe environment in an atmosphere of fairness and trust.

## OUR CORPORATE VALUES

<u>Service Excellence</u>	We are committed to providing affordable, high quality municipal services which meet the reasonable needs of our customers.
<u>Protection</u>	We are committed to protect Gilbert's quality of life and the individual rights of our residents.
<u>Fairness</u>	We will treat all people courteously and equitably. We will listen and ask questions until we understand. Our actions will be consistent with approved rules and policies, yet flexible and responsive to individuals whose reasonable needs can not otherwise be met.
<u>Trust</u>	We are committed to respond to the needs of our citizens in an honest, credible and timely manner.
<u>Innovation</u>	We are committed to meeting and exceeding community needs by fostering a spirit of creativity, resourcefulness and open-mindedness.
<u>Communication</u>	We will strive to ensure that all communications are dealt with honestly and fairly with a commitment to accuracy and timeliness.

Gilbert continues to work toward organizational alignment from strategic goals all the way to individual performance standards. The goals and objectives included in the department information are the intermediate step and should tie directly to the strategic issues identified on these two pages.

The Council reviews the Strategic Goals during the annual retreat.

- ◆ Initiated a Preferred Company study through Morrison Institute for Public Policy at Arizona State University

The General Plan was revised in 2001 and the voters approved the revisions in November 6, 2001 as required by State law. The General Plan contains nine major elements. Eight of these elements have a vision statement, goals and policies to support the development of land use in Gilbert. Following are the elements and their related vision statements.

**Land Use**

Provide a sustainable mix of land uses that maintain the quality of life elements that make Gilbert a “Community of Excellence”, promote economic development and redevelopment at appropriate locations.

**Circulation**

Provide a safe, efficient, and aesthetically pleasing circulation network which considers all modes of vehicular and non-vehicular movement and does so in an environmentally sensitive manner

**Parks, Open Space, Trails and Recreation**

The residents envision integrating the people and neighborhoods of Gilbert through beautiful, safe, well-maintained parks, open spaces, locally and regionally connected bike lanes, and multiple-use and equestrian paths and trails that reflect Gilbert’s heritage.

**Environmental Planning**

Available and secured resources are used and consumed in a manner that ensures a sustainable economy and quality of life.

**Public Facilities and Services**

Provide a high level of municipal services and facilities to properly serve the community in a manner that enhances quality of life, optimizes existing facilities, and provides for future needs.

**Neighborhood**

Encourage development/re-development of under utilized employment areas, enhance job opportunities, enhance tax base and create a healthy economy.

Encourage a variety of housing options that provide the opportunity for affordable housing, preservation of existing housing stock, revitalization of mature neighborhoods.

**Economic Development**

Gilbert will become widely recognized as a globally competitive community that is a prime location for business and industry.

**Community Design**

Provide the development community and the citizens of Gilbert with guidelines and assistance to develop Gilbert as a “Community of Excellence” in new construction and re-development efforts.

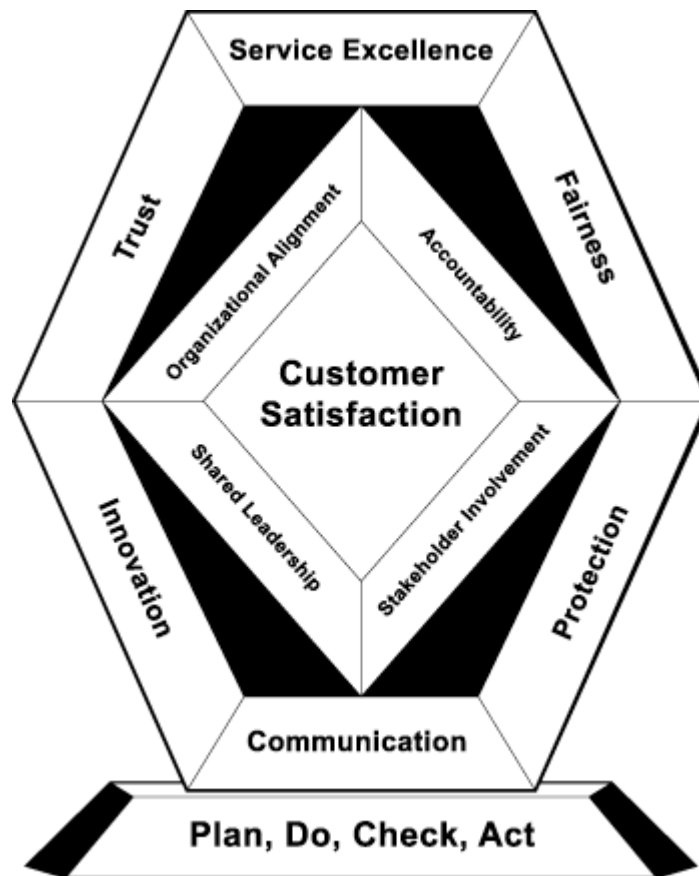

## Continuous Quality Improvement .....*It's The Way We Do Business*

Through CQI we strive to make certain that our organization does things right by focusing on customers' needs and expectations to define what the "right" things are and define what the standards are. Our values and key practices drive our ability to meet our customer needs and expectations.

CQI is a process and a body of knowledge. The process, called Plan, Do, Check and Act (P-D-C-A), is a structured approach to problem-solving and planned change. The body of knowledge includes a specific set of tools, techniques, and key activities that will enable us to manage by fact. It also includes principles and philosophies that support planned change, either by individuals or stakeholder teams.

This is our model. The foundation is the method. The cornerstones are our key practices. We are surrounded by our values.

Gilbert celebrated the 10 year anniversary of CQI in the organization in fiscal year 2005. During FY 2009, a bi-annual survey will be issued to all employees to determine the integration level of CQI into our work culture.

## Our Purpose

The purpose of Gilbert's Community with Character (GCWC) is to advance the highest standard of citizenship necessary for creating a safer, more caring community.

## Our Vision as a Community With Character

We see Gilbert, Arizona, being a place that people are proud to call home, a place where diverse families feel safe and care about their neighbors and the community in which they live.

We see **children** learning from their community a consistent message about the cause and effect of good character. **Teachers** model the character traits and teach about role models of good character. They reward students for demonstrating positive character traits. The effect is a better more enjoyable learning environment for students to focus on the scholastic basics and life skills.

We see the **mayor, council, town employees, and other elected officials** being exemplary role models and good stewards of the same character traits in the community decisions they make. The effect is an increased level of confidence and trust of our leaders by the people of our community.

We see the **police** department teaching, demonstrating and rewarding citizens for the same character traits in their counseling work with youth and families. The effect is youth making healthier decisions and parents offering increased support that reduces recidivism.

We see our **H.O.A.s and neighbors** supporting each other and demonstrating the same character traits in all they do. The effect is people helping people to make our neighborhoods safe places to raise our families.

We see **businesses** demonstrating and rewarding their employees and customers for the use of the same good character traits in their decisions. The effect is increased morale, increased productivity and increased revenue.

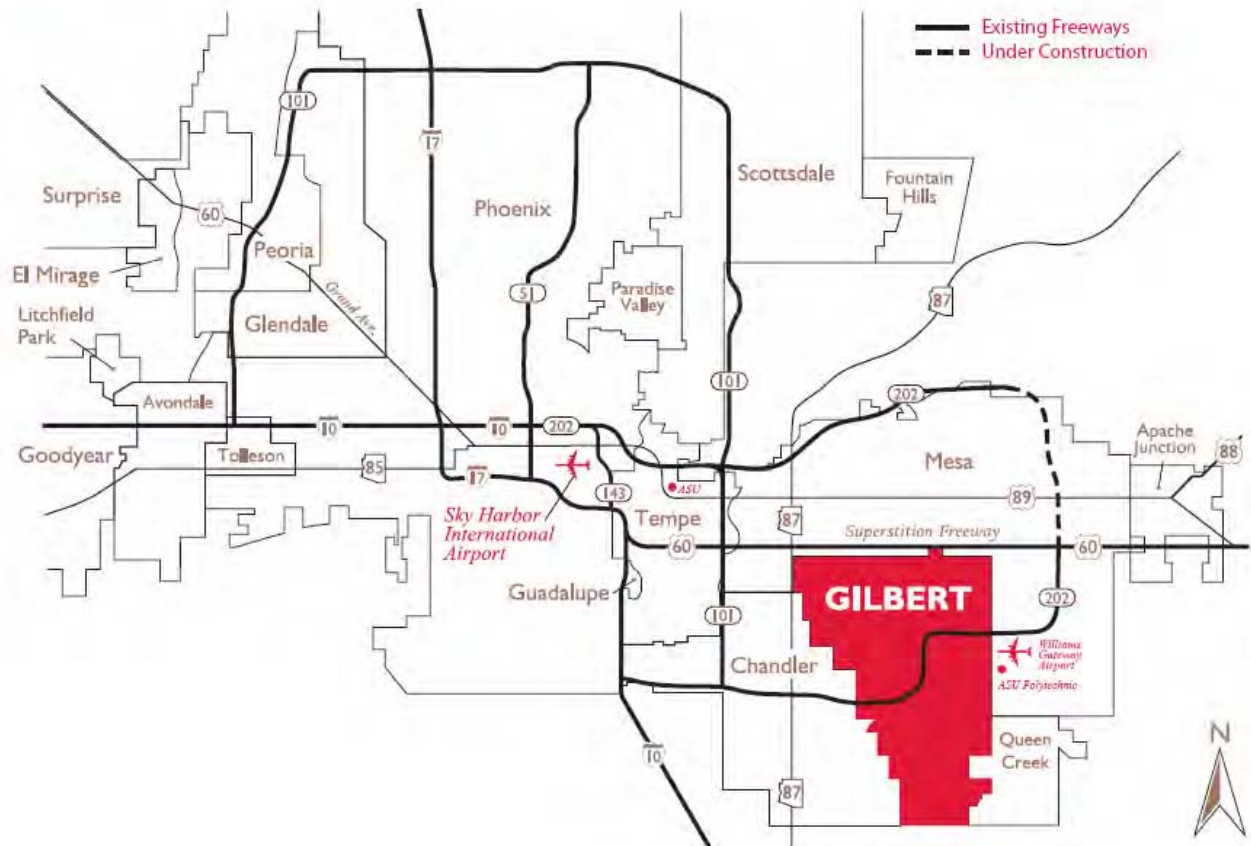

We see **families** discussing and reinforcing the same character traits they learned at work and school in their home. The effect is a more supportive, encouraging and happy home.

We see the **media** providing generous press coverage to highlight the character trait of the month and provide a spotlight on those people in our community as well as from history who are/have been exemplary role models of good character traits. The effect is a clearer picture and greater conscious awareness of what it looks like to be a person of good character.

Together as citizens of Gilbert we unite and stand for the strong moral character that has made, and will continue to make, this nation great.

**We choose to be a Community With Character and embrace the "Six Pillars of Character" from CHARACTER COUNTS!™**

The financial accounts for Gilbert are organized on the basis of funds or account groups. In governmental accounting, a fund is a separate self-balancing set of accounts used to show operating results for a particular activity or activities. Funds are categorized into three classes: governmental, proprietary or fiduciary. Different Fund types are found within each of these three classes.

## **GOVERNMENTAL FUNDS**

**General Fund** – The general fund accounts for the resources and uses of various Gilbert departments. A majority of the daily operating activity is recorded in this fund. Police, Fire, Development Services, Community Services, Personnel, Technology Services are all examples of activity in the General Fund. Governmental accounting requires the General Fund be used for all financial resources except those required to be accounted for in another fund.

**Special Revenue Funds** – These funds account for the proceeds of specific revenue sources that are legally restricted to expenditures for a specific purpose.

- *Highway User Revenue Fund*  
All street operating costs eligible for state highway revenues are included in this fund. Revenues are derived from State shared fuel tax, vehicle license tax, local transportation assistance fund and other street-related fees.
- *Equipment Replacement Funds*  
General Fund, Street Fund, Fleet Fund, and Solid Waste operations provide for replacement of equipment and vehicles through a yearly charge to each cost center. Water and Wastewater Funds provide for replacement of equipment, vehicles, and infrastructure.
- *Community Development Block Grant*  
This fund accounts for all federal CDBG revenue. The revenue is used for expenditures that create a more viable community, such as downtown renovation and social services.
- *HOME Fund*  
This fund accounts for Federal Home Investment Partnership revenue. The revenue is used for expenditures that create

and maintain affordable housing within the Town.

- *Grants*  
The Town accounts for grant revenue and the related expenditures in a separate fund. The entire expense is included in this fund and any amount not supported by grant revenue is transferred from another fund.
- *Other Special Revenue*  
Other special projects are accounted for in this group of funds. The activity extends beyond one fiscal year and is for a specific event. An example would be the activity related to the Riparian Preserve.
- *System Development Fees*  
This set of funds segregates the revenue to pay for growth related capital projects. The revenue is transferred, as needed, to Capital Projects funds to pay for eligible projects or to Debt Funds to repay debt issued for growth-related construction.
- *Maintenance Improvement Districts*  
Arizona Statutes provide that improvement districts can be established to pay for streetlights and parkway improvements. Gilbert established two funds for these districts. Revenue is received from benefited property owners.

**Capital Project Funds** – These funds account for revenue received and expenses related to infrastructure improvements such as streets, water, wastewater, and parks. Revenue is received from system development fees, bond proceeds, and other sources.

**Debt Service Funds** – The short and long-term payment of principal and interest on borrowed funds is accounted for in these funds.

**Special Assessment Funds** – Special levies are collected against property that benefits from a capital improvement district improvement. There are presently three districts.

## PROPRIETARY FUNDS

**Enterprise Funds** – These are funds in which the services provided are financed and operated similarly to those of a private business. User fees are established and revised as needed to ensure that revenues are adequate to meet all necessary expenditures. Gilbert has enterprise funds for water, wastewater, irrigation and solid waste operations.

**Internal Service Funds** – Gilbert has three Internal Service Funds; one for fleet maintenance, one for printing service and one for health self insurance. The Internal Service Funds are used to provide service to other departments and to recover the cost of that service. The use of these funds provides a more complete picture of the cost to provide a service because more of the total costs are included in the cost center using the service.

## FIDUCIARY FUNDS

**Trust and Agency Funds** – This fund type is for assets held by the Town in a trustee capacity or as an agent for individuals, private organizations, other governmental units or other funds. Use of these funds facilitates discharge of responsibilities placed upon the governmental unit by virtue of law or other similar authority.

## ACCOUNT STRUCTURE

A number of accounts are found within each fund. A fund is divided first into cost centers that include Business Units, Departments, Divisions and activities that relate to a functional area such as Police Patrol – Canine. Within each cost center are object codes that tell what a particular transaction is for.

The account structure hierarchy is:

- Fund
  - Cost Center
    - Object Code

The cost center is further divided into separate object codes to identify the particular revenue or expenditures type. For example, within Police Patrol - Canine there is an object code for fuel that accumulates the costs paid for fuel during that fiscal year.

Expense object codes are segregated by the following categories:

- Personnel Services
- Contractual and Other
- Capital Outlay
- Debt and Depreciation
- Transfers

Revenue object codes are also segregated based on the first two numbers in the code.

This segregation provides the ability to summarize expenditure information by major category.

The chart of accounts structure provides distinguishing characteristics for each portion of the account. For example, the Street Fund, Pavement Marking, Salary and Wages would be account:

120100.41060301.5001

Public Works, Streets, Traffic Control, Pavement

**BUDGET DEVELOPMENT**

The budget process begins with revenue projections. Gilbert using a resource constrained budget development process. The Council determines the priorities for the year and then staff develops the best possible budget that incorporates Council priorities and fits within the resources available.

Council set the following boundaries for budget preparation:

- ✓ No change in sales or property tax rate
- ✓ Continue implementation of Fire sub-committee recommendations
- ✓ Continue implementation of Police sub-committee recommendations
- ✓ Continue implementation of Parks and Recreation sub-committee recommendations
- ✓ Allow for a 2% market range adjustment to be readdressed mid-year
- ✓ Continue construction of buildings and infrastructure to meet needs of population

The major steps in preparation of the budget were:

- ✓ Update FY 2008 projections and five year projections for operating funds
- ✓ Council input of boundaries and priorities
- ✓ Preparation of budget with input from staff
- ✓ Present draft to Council
- ✓ Council review and adoption

The Budget Calendar page depicts the timing in more detail.

**STATE EXPENDITURE LIMIT**

The State of Arizona sets a limit on the expenditures of local jurisdictions. State Statute sets the limits unless otherwise approved by the voters. The Town of Gilbert received voter approval to increase this limit because of the population growth rate. Gilbert must budget at or below this limit.

The expenditure limit base approved by the voters must be used in determining Gilbert's expenditure limit until a new base is adopted. The expenditure limit for FY 2009 is \$295,093,614. Some of the specific items excluded from the expenditure limit include: revenue from bond sales, revenues received for interest, trust and agency accounts, federal grants, and amounts accumulated for the purchase of land, buildings, or improvements if the voters approved.

**BUDGET AMENDMENTS**

Under Arizona Statutes, the budget cannot increase once the Council adopts the preliminary budget.

Transfers between budget line items are submitted throughout the year to align the budget with actual experience and requirements. This provides a more refined picture of what the base should be for the next budget year.

The Town budgets for contingencies in the following funds:

- ✓ General
- ✓ Streets
- ✓ Water
- ✓ Wastewater
- ✓ Solid Waste – Residential
- ✓ Solid Waste - Commercial

The Council must approve all budget transfers from contingency. The contingency account is used for emergency or unforeseen actions.

**BUDGET CARRYFORWARD**

If completion of a project or acquisition is not expected during a fiscal year, the amount must be included in the budget for the following fiscal year and balanced along with other requests.

**BUDGET BASIS**

The budget is prepared on a basis generally consistent with Generally Accepted Accounting Principles (GAAP). The Town's Governmental Funds consist of the General Fund, Special Revenue Funds, Debt Service Funds and Capital Project Funds. Governmental fund type budgets are developed using the modified accrual basis of accounting.

Under the modified accrual basis revenues are estimated for the fiscal year if they are accrued (amounts can be determined and will be collected within the current period). Principal and interest on general long-term debt is budgeted as expenditures when due, whereas other expenditures are budgeted for based on the timing of receipt of the good or service.

Proprietary Fund Budgets – Water, Wastewater, Solid Waste, Irrigation and Internal Service Funds - are adopted using the full accrual basis of accounting whereby revenue projections are developed recognizing revenues earned in the period. Expenditure estimates are developed for all expenses incurred during the fiscal year.

The major differences between the budget and the Comprehensive Annual Financial Report (CAFR) are:

- ✓ Certain revenues, expenditures, and transfers are not included in the budget, but are accrued and reported on the GAAP basis. An example is the increases or decreases in compensated absences are not included for budget purposes but are in the CAFR.
- ✓ Indirect administrative cost allocations to the Enterprise Funds are accounted for as transfers in or out on the budgetary basis, but are recorded as revenues and expenses for the CAFR.
- ✓ New capital outlays in the Enterprise Funds are presented as expenses in the budget, but recorded as assets in the CAFR.
- ✓ Depreciation expense is not included in the budget, but is an expense in the CAFR.
- ✓ Debt service principal payments in the Enterprise Funds are expenses in the budget, but reported as reduction of long-term debt liability in the CAFR.
- ✓ Debt issue, discounts and premiums are considered expensed or earned in the year paid or received, not over the life of the bonds.
- ✓ Encumbrances are treated as expenses in the year the purchase is made for budget purposes.

**State Debt Limit**

The Arizona Constitution limits the outstanding bonded debt capacity to a certain percentage of Gilbert's secondary assessed valuation based on the type of project to be constructed.

There is a limit of 20% of secondary assessed valuation for projects involving streets, water, sewer, artificial lighting, parks, open space and recreational facility improvements.

There is a limit of 6% of secondary assessed valuation for any other general-purpose project.

**Debt Management**

Gilbert received voter authorization for \$80 million in street capital projects in 2002 and \$174 million in 2007. Before any new general obligation debt is issued under this approval umbrella, the annual principal and interest costs must be repaid within the property tax levy of \$1.15/100 of secondary assessed valuation. The amount must also fall within the 20% of secondary assessed valuation allowed for projects.

Gilbert annually reviews the status of outstanding and future potential debt in relation to capacity to defease, call or refund outstanding debt.

**Replacement Funding**

Separate funds exist for fleet replacement. Each cost center in the General, Street, Solid Waste and Fleet Maintenance Fund contributes for future replacement of vehicles. The contribution is based on the projected replacement cost/anticipated useful life of the fleet.

When a vehicle is replaced, it must be disposed of to avoid adding to the fleet inventory and to avoid unnecessary maintenance and operation costs.

Replacement funds in Water and Wastewater provide future replacement of infrastructure and fleet.

**Growth**

Gilbert requires that to the extent possible, growth pay for itself. To that end, the Council adopted seven different system development fees and annually reviews growth related fees. The system development fees are detailed in the special revenue section. Additional fees related to building permits, engineering permits and planning are found in the Development Services section.

**Contingency**

Gilbert appropriates dollars in the major operating funds for emergency and unknown events. The amount of contingency is equal to 2.0% of the budget expenditures for General Fund and 5.0% of the budget expenditures for the Water, Wastewater, Street, and Solid Waste Funds. The Contingency is calculated excluding non-operating items such as capital project transfers and debt service payments.

**Reserve**

Gilbert maintains a General Fund "rainy day" reserve of \$12,500,000 which is the goal of 10% of total General Fund expenditures. For FY 2009, Council approved a General Fund budget with a ending fund balance less than the 10% minimum requirement due to the economic downturn.

**Allowance for Unexpended Appropriations**

The Water, Wastewater, Residential Solid Waste, and Commercial Solid Waste operating funds budget include a 2% allowance for unexpended appropriations. This allowance is based on historical spending patterns and provides a more accurate picture of what the "bottom line" will be.

**Revenue**

Gilbert strives to balance residential growth with commercial and industrial growth to stabilize the privilege tax revenue.

User fees in Enterprise Fund operations are calculated to recover the entire cost of operations, including indirect costs, debt service, reserve for replacement, and overhead costs.

Gilbert avoids dependence on temporary revenue sources to fund recurring government services.

Gilbert does not use the property tax for operating expenditures.

Gilbert is conservative in revenue estimates. Revenues resulting from possible changes in laws or ordinances are not included in revenue estimates.

**Investments**

Gilbert keeps all idle funds fully invested as authorized by State Statute.

**Accounting, Auditing and Financial Reporting Policies**

An independent audit is performed annually. A request for proposal prepared every three years to procure services for the audit.

Gilbert produces a Comprehensive Annual Financial report in accordance with Generally Accepted Accounting Principles (GAAP) as outlined by the Government Accounting Standards Board (GASB).

Gilbert strives to meet the guidelines and criteria necessary to receive the Government Finance Officer's Association Certificate for Excellence in Financial Reporting. Gilbert has received the award annually since 1991.

**Purchasing Policy**

Gilbert's purchasing policy is adopted by Ordinance. The Council must approve all purchases greater than \$50,000. The purchasing ordinance was revised during FY 2007 and implementation of changes is underway. Changes include more formal documentation and bid requirements. The definition for purchase was revised to encompass the fiscal year for a similar or materially similar item.

**Financial Planning**

Gilbert adopts a Capital Improvement Plan and Program that plans for all improvements needed. Anticipated maintenance costs are included for all projects. The first five years of additional maintenance costs are combined with other data gathering techniques to project operating results for five years. This information is the basis for developing the next year budget.

**Five Year Forecasts**

Five year forecasts are updated annually for the following funds:

- ◆ General
- ◆ Streets
- ◆ Water
- ◆ Wastewater
- ◆ Solid Waste – Residential
- ◆ Solid Waste - Commercial

The forecasts are based on assumptions derived from boundaries set by the Council or Executive Team, economic indicators, capital projects anticipated in the Capital Improvement Plan and required rate increases to maintain break even or solvency. The five year forecasts can be found in the Financial Overview section of this budget document.

The Fund Balances table shows the estimated carry forward balance combined with new revenue and transfers from other funds to provide an available resources column. Total uses include expenses and transfers to other funds that subtract from the available resources. The ending balance is a projection based on estimated beginning balance plus an assumption of 100% revenue collection and 100% funds expended.

Some of the funds indicate a planned deficit position during this fiscal year. Following is an explanation of the variance:

- The Water Operating Fund has a planned deficit due to one time cash funding of capital projects.
- The Commercial Solid Waste Fund has a planned deficit due to funding the Replacement of equipment at 100% in the SW Commercial Replacement Fund. The total of these two funds is a positive \$932,902.
- The Traffic Signal SDF, Fire SDF, General Government SDF, and Wastewater SDF Funds have planned deficits due to cash funding of capital projects. Gilbert updates the Capital Improvement Plan and the System Development Fee model annually to determine long range cash balances in these funds.
- The Municipal Facilities Project Fund reflects a negative balance due to timing of funding.
- The Storm Water Fund reflects a negative balance due to timing of developer payments.
- The Parks, Recreation and Open Space fund reflects a negative balance due to timing of funding.

- ✓ Residential Solid Waste Fund
- ✓ Commercial Solid Waste Fund

These forecasts are interactive financial planning models which allow the Council and staff to view multiple scenarios to determine the optimal budget for a specific fund. Multiple versions of each forecast are created as assumptions and market conditions change. The final versions of these five year forecasts are included in this section.

The five year financial forecasts include the same elements and most of the assumptions related to expenditure changes are applied consistently throughout. The projected revenue drives the expenditures in the General Fund and the Street fund; whereas, the revenue in the Water, Wastewater and Solid Waste Funds is determined based on the necessary expenditures to operate these enterprise operations.

The elements of the models include:

1. Beginning Balance - the projected balance available for current operations
2. Total Revenue – includes all revenue sources and transfers in from other funds
3. Base Expenditures – reflects what the expenditures would be if no changes are made to the budget for the General Fund and what the base is with expenditure assumptions for the other Funds
4. Base Expenditures Change – specific requested changes to the budget
5. One Time Expenditures – specific expenses that occur once
6. Capital Project Expenditures – includes transfers to other funds to finance construction and future operating costs in the fund for new capital projects
7. Total Fund Balance – what amount will be available at fiscal year end

The following expenditure assumptions are consistent among all six forecasts:

- ✓ Compensation increases were limited to a 2% market adjustment for FY 2009. Council will readdress the FY 2009 market adjustment mid-year. All future years include a 3% market adjustment and a 5% merit adjustment based on performance.
- ✓ Benefit increases are estimated at 10% based on information provided by the Health Insurance Trust. Impact to each fund will differ depending on employee benefit elections.
- ✓ A 3% inflationary factor is included for all future years. This factor is based on CPI and will be adjusted with changes in the economy for future years.
- ✓ The insurance market adjustment provides an escalator based on estimates from Risk Management.

Community Services	3.0%	3.0%	3.0%	3.0%	3.0%

The following items highlight contributing factors that affect the General Fund:

- ✓ Anticipated salary savings is determined based on the percentage of employees anticipated to be at maximum rate of pay for their classification. This savings only applies when a merit increase is given for that particular fiscal year.
- ✓ Operating contingency is 2% of budget base expenditures at a given point in the budget process.
- ✓ Revenue assumptions are presented more fully in the Revenue section of the summary. In general Gilbert is anticipated a full year of economic downturn with a slow recovery starting in FY 2010.
- ✓ Construction Sales Tax is anticipated to be off significantly from FY 2008 and will recover in FY 2010 due to the economic downturn.
- ✓ The fund balance includes a reduction for the System Development Fee (SDF) bonding reservation required to repay debt in SDF funds that are projected to have a negative balance due to reductions in new construction.
- ✓ The Council adopted a reserve policy for the General Fund recommending a reservation of Fund balance equal to 10% of total expenditures. The Council elected to project a fund balance less than this policy for the current fiscal year due to the anticipated temporary nature of the downturn in the economy.
- ✓ The base expenditure change is driven by the expenditure assumptions and by the police standard set by the Council sub-committee. For every 1,000 people added to population, 1.1 police officers are added. The model calculates all the related costs for these officers in terms of police supervision, support services, prosecution and court.

### Revenue Assumptions:

Rate Increase	6%	0%	0%	0%	0%
Revenue Change	0%	0%	5%	5%	5%

The following items highlight contributing factors that affect the Water Fund:

- ✓ Allowance for unexpended is assuming that there will be a percentage of budgeted expenditures that are not actually spent at the end of the fiscal year. This allowance is determined to be 2% of the budgeted base expenditures at a given point in the budget process.
- ✓ Operating contingency is 5% of budget base expenditures at a given point in the budget process.
- ✓ Operating result is Total Revenue less Base Expenditures less capital maintenance costs which are included in the Capital Project Expenditure line item.
- ✓ The Water Fund rate structure should be sufficient to finance operations after the 6% rate increase in the current fiscal year.
- ✓ The major drivers in the Water Fund budget include addition of a South Water Treatment Plant in late FY 2009, capital expenditure transfers for a well, water line and reservoir rehabilitation.

## Wastewater Fund Five Year Forecast

### Revenue Assumptions:

Rate Increase	6%	6%	6%	6%	6%
Revenue Change	0%	0%	5%	5%	5%

The following items highlight contributing factors that affect the Wastewater Fund:

- ✓ Allowance for unexpended is assuming that there will be a percentage of budgeted expenditures that are not actually spent at the end of the fiscal year. This allowance is determined to be 2% of the budgeted base expenditures at a given point in the budget process.
- ✓ Operating contingency is 5% of budget base expenditures at a given point in the budget process.
- ✓ Operating result is Total Revenue less Base Expenditures less capital maintenance costs which are included in the Capital Project Expenditure line item.
- ✓ A 6% rate increase is projected for all years based on increasing service levels and increases in costs for salaries, contracts and supplies.
- ✓ The first years of the plan include capital improvement transfers to complete a force main rehabilitation, installation of a 12" sewer in Baseline from Claiborne to Greenfield and install parallel relief sewers.
- ✓ As shown the operating result improves over the five year planning period and the fund balance returns to about 13% of annual expenditures.

## Residential Solid Waste Five Year Forecast

Revenue Change	based on reduced growth numbers				

The following items highlight contributing factors that affect the Residential Solid Waste Fund:

- ✓ Allowance for unexpended is assuming that there will be a percentage of budgeted expenditures that are not actually spent at the end of the fiscal year. This allowance is determined to be 2% of the budgeted base expenditures at a given point in the budget process.
- ✓ Operating contingency is 5% of budget base expenditures at a given point in the budget process.
- ✓ Operating result is Total Revenue less Base Expenditures less capital maintenance costs which are included in the Capital Project Expenditure line item.
- ✓ A 6% rate increase is projected for all years based on increasing service levels and increases in costs for salaries, landfill, fuel and equipment maintenance.
- ✓ The operating result is negative in the current fiscal year because of one time purchases of equipment, transfers to the solid waste replacement fund and contingency.
- ✓ The capital project transfer is for the this fund's share of utility billing software replacement.

### Revenue Assumptions:

Revenue Change Based on estimates from AZ League/MAG

The following items highlight contributing factors that affect the Street Fund:

- ✓ Allowance for unexpended is assuming that there will be a percentage of budgeted expenditures that are not actually spent at the end of the fiscal year. This allowance is determined to be 2% of the budgeted base expenditures at a given point in the budget process.
- ✓ Operating contingency is 5% of budget base expenditures at a given point in the budget process.
- ✓ Operating result is Total Revenue less Base Expenditures less capital maintenance costs which are included in the Capital Project Expenditure line item.
- ✓ Revenue in this fund is driven by state shared revenue and the state's economy. In 2012 an adjustment is due with the reallocation based on the 2010 census which will increase revenue.
- ✓ This fund needs to be adjusted with next year's budget process. Several large capital project expenditures are reducing the funding balance. Alternate financing sources may be necessary.
- ✓ The base expenditure change is reflective of increasing costs for street maintenance due to growth in infrastructure.

**ALL REVENUE SOURCES**

This section of the budget document includes detail information regarding revenue types, including historical information, assumptions for the FY 2009 budget and future projections. Information on bond proceeds, property tax and special assessments is found in the debt section.

The total revenue anticipated for FY 2008 is \$990,280,840; of this \$259,072,360 is transfer of resources from one fund to another and \$731,756,480 is new revenue. This is over an 85% increase from FY 2008 budget mainly attributable to bond proceeds. The only other revenue type with any significant increase is in charges for service. Details on areas of change are found in the sections in this summary area of the budget. The major revenue sources for all funds are shown on the table below:

## TAXES AND FEES

### Local Sales Tax

Gilbert levies a one and one-half percent sales tax on sales collected within Gilbert's boundary. Gilbert increased the rate from one percent to one and one-half cent in FY 2001. The State collects this sales tax revenue and remits the amount collected weekly.

Gilbert anticipates an increase in sales tax collections of 46% over the next five years. The largest contributing factor is the opening of additional retail along the San Tan Freeway corridor. The table below shows that retail is anticipated to grow by 103% over the next five years. Included in the retail sales tax estimate is a growth assumption of 3% in FY 2009 and FY 2010 and 5% thereafter. Construction sales tax is anticipated to decline by 65% in FY 2009 based on the slow down in growth. There is a recovery anticipated in FY 2010 but no increase is foreseen for the remainder of the next five years.

The projections are based on the following assumptions:

- the retail growth for the first 2 years of the next 5 year period will be less than anticipated
- construction will decline in FY 2009 with a recovery in FY 2010
- no significant new non-retail sources will develop
- retail development will continue as planned
- other sales tax areas will grow at 3% annually
- the sales tax rate will not increase

## Property Tax

Property tax only repays debt issued for voter approved bonds. General Obligation bonds are issued to pay for construction of streets, parks, facilities, and utility infrastructure. The levy rate is \$1.15 per \$100 in secondary assessed value. This levy is about 10% of the total property tax rate for property in the Gilbert School District. While the Gilbert School District is the largest, there are three school districts that cover Gilbert including Gilbert, Higley, and Chandler.

More information on general obligation debt and the property tax is found in the debt section as well as on the property tax rate page following the revenue source information.

## Assessments

Assessment districts are established for street lights, parkway improvements and capital improvements. The street light district revenue is based on the cost of electricity for the district area. The amount is revised and levied every year. Each district is calculated separately. Parkway Improvement Districts (PKID) pay for the cost of maintenance and improvements in parkway areas for eleven subdivisions in Gilbert. The amount for each PKID is levied on an equal per lot basis. The levy for these districts is calculated and levied annually based on projected and historical costs. The levy for street lights and parkway maintenance is collected on the property tax bill and is included with taxes and fees.

Capital Improvement Districts repay improvement debt issued for one time construction of infrastructure. The benefited property in the area is levied an assessment to repay the debt issued. This revenue is included in the other non-operating category. An allowance of \$99,997,740 is included in bond proceeds in the event a project presents itself after the budget is adopted.

## System Development Fees

System Development Fees (SDF) are charged to all new development. The fees are collected to pay for infrastructure required due to growth. Fees are collected for traffic signals, water, wastewater, parks, police, fire and general government. A water resource fee is charged to pay for the cost of increased water rights. SDFs are reviewed annually and revised based on changes in the cost of construction and changes in the infrastructure requirements. Based on current slow down experienced in construction, the budget anticipates that growth will be about 50 single family homes per month for FY 2009, down significantly from prior years. Recovery is anticipated beginning in FY 2010, with a projection of 192 sing family homes per month. The projection also includes allowances in future years for additional non-residential construction. The graph below shows the anticipated growth in System Development Fee revenue.

The projection for system development fees is based on 5% rate increases with 50 single family households plus the projection for retail, industrial and other commercial. In FY 2008 there was an average of 119 single family home permits issued monthly.

## LICENSE AND PERMITS

License fees are charged for business registration and alcoholic beverage license. Permits fees are charged for building, fire, engineering, signs, and alarms. The permit fees trend with the construction activity.

## INTERGOVERNMENTAL

Funding received from any other government agency is considered intergovernmental. The largest source is state shared revenue for sales tax, income tax, highway user revenue, vehicle license tax and local transportation assistance fund. The state shared revenue is distributed as follows:

<b>Sales Tax:</b>	Twenty five percent of state sales tax is distributed based on the relation of Gilbert's population to the total population of all incorporated cities and towns in the state.
<b>Income Tax:</b>	Fifteen percent of the state income tax is distributed based on the relation of Gilbert's population to the total population of all incorporated cities and towns in the state. There is a two year time lag in distribution. So the income tax collected in FY 2006 is distributed to the Cities in FY 2008.
<b>Highway User Revenue:</b>	Cities and towns receive 27.5% of the highway user revenue fund. One half of the monies received are distributed based on the relation of Gilbert's population to the total population of all incorporated cities and towns in the State. The remaining one half is distributed based on the basis of the "county of origin" of gasoline sales and the relation of Gilbert's population to the total incorporated population of Maricopa County. These funds must be used solely for street purposes.
<b>Vehicle License:</b>	Twenty-five percent of the net revenues collected for the licensing of motor vehicles by the county are distributed back based on the population of Gilbert in relation to the total incorporated population of Maricopa County.
<b>Local Transportation Assistance Fund:</b>	The State Lottery distributes funds based on population.

The largest share of state shared distributions is based on census population. The growth of Gilbert will outpace the distributions received as a result of the last census in 2005. The following graph shows the actual amounts of Intergovernmental revenue received per capita as well future projections, and illustrates a steady decline until the 2010 census is completed.

## CHARGES FOR SERVICE

All charges for service are based on the philosophy that whoever benefits from the service should pay a portion or all of the cost to provide that service. For example, the Council determined that new development must pay for growth therefore all community development fees are calculated based on 100% cost recovery.

Other charges for service include user fees for recreation services, water consumption, wastewater and solid waste disposal. The goal is for development services, internal services, enterprise operations and all adult sports to be 100% self-supporting. Overall recreation programs have an approximate cost recovery of 53% planned for in FY 2009.

The following table compares the charges based on use.

Year	General Services	Internal Services	Water, Irrigation	Wastewater	Solid Waste	Total

## Water

Water user fees are reviewed annually to ensure that revenue is able to cover 100% of the actual and anticipated cost of providing water to customers. The cost includes pumping water from the ground, treating the surface and ground water, distributing the water to customers, reading the meters and maintaining the system. A rate increase is included for FY 2009. The graph below shows the anticipated growth in revenue resulting from increases in customer base, the FY 2009 fee increases and future projected rate increases necessary to maintain cost recovery.

**Water Charges for Service**

## Wastewater

Staff reviews wastewater fees annually to ensure revenue covers 100% of the cost of operations. Wastewater operations include collection, treatment and recovery of wastewater. The graph below shows the anticipated growth in revenue resulting increases in customer base and a rate increase.

**Wastewater Charges for Service**

## Solid Waste

Solid Waste includes collection of residential, uncontained, and recycling. The operation also includes commercial and roll off customers. Annual rate reviews ensure that revenue covers all the cost of operations. The costs impacting rates the most in these funds are personnel, landfill tipping fees, equipment maintenance and replacement. The graph below shows the anticipated growth in revenue resulting from increases in customer base and projected rate increases.

## FINES AND FORFEITS

Fines are collected by the Court based on citations issued by the Police Department and cases prosecuted by the Prosecutor's office. The graph below shows the anticipated growth in revenue resulting from increases in population base and in Police Officers per capita.

**INVESTMENT INCOME**

Gilbert invests all idle cash with the State of Arizona Local Government Investment Pool (LGIP). The current rate of return is about 2%. The average for FY 2008 was 3.75%. Interest income in the five year forecasts included 2% interest for FY 2009 followed by a 4% rate of return for the remaining four years.

**OTHER NON-OPERATING**

This revenue category includes property rental, insurance recoveries, donations and contributions and other one-time revenue not categorized elsewhere. Most of the other non-operating is highly unpredictable and is included in the budget at a minimal amount unless a specific source is known during budget preparation.

**BOND PROCEEDS**

Gilbert anticipates selling four bond issues in FY 2009:

◆ General Obligation Debt for street and parks projects	\$187,986,000
◆ MPC – Public Facilities	\$58,292,000
◆ MPC – Water	\$32,500,000
◆ MPC – Wastewater	\$15,636,000
◆ Improvement District	\$13,500,000

In addition, there is a reserve amount for Improvement District Debt in the amount of \$100,000,000 to provide the ability for unforeseen development.

More information on debt and bond proceeds is found in the Debt section.

The property tax rate for Gilbert is \$1.15/\$100 in secondary assessed valuation, there is no primary property tax. Town of Gilbert property tax is collected for debt repayment only, not for operations.

Residents in Gilbert, based on address, are served by one of three local school districts. Each district has a unique primary and secondary tax rate. The distribution of property tax based on 2007/08 information is shown below for each district. The graph to the right shows the percentage allocation for the Gilbert School District.

**FUND DESCRIPTION**

---

The General Fund is the largest operating fund in the budget and includes the most diverse operations. The General Fund provides accounting for all activities that do not have a specific revenue source. The revenue collected for support of the entire community is deposited in the General Fund to finance Public Safety, Development Services, Community Services, and Internal Support functions. The following table indicates the subsidy provided for each major area.

<b>Program</b>	<b>FY 2008-09 Appropriation</b>	<b>FY 2008-09 Recovery</b>	<b>FY 2008-09 Subsidy</b>	<b>FY 2008-09 % Subsidized</b>

<b>Total General Fund</b>	<b>\$ 124,568,360</b>	<b>\$ 21,312,600</b>	<b>\$ 103,255,760</b>	<b>83%</b>

A portion of the recovery consists of transfers from other operating funds as a recovery of costs incurred to support the operations of Water, Wastewater, Solid Waste and Streets.

The total General Fund Revenue budget is \$120,318,520. The non-allocated revenue of \$99,005,920 detailed in the summary section of this document provides for the subsidy. The remaining subsidy amount of \$4,249,840 is provided by carry-forward balances.

More detail on revenue and expenditures is included in the summary section and in the individual section for that activity.

**FUND NARRATIVE**

---

The General Fund received a significant amount of scrutiny during this year's budget process because of constrained revenue growth in the area of both new construction and local sales tax. The single largest revenue source that supports the General Fund is local sales tax collected by current and new businesses locating in the community. Due to both the current downturn in residential development and in the national economy, local sales tax revenues have grown, but not by the projections supported by a more healthy economy. As a result both expenditure and revenue assumptions have been adjusted to fit within the most current expectations of slower economic growth in the near term than what Gilbert has historically experienced. The fund will continue to remain within a delicate balance for the next several years as both the local economy and corresponding development activity return to a state of normalcy.

***PURPOSE STATEMENT***

The Mayor and Council provide community leadership, develop policies to guide Gilbert in delivering services and achieving community goals, and advance and promote the physical, social, cultural and economic environment of Gilbert, through effective civic leadership and through the active democratic participation of our citizens.

The Town Council is comprised of a Mayor and six Council Members. The Council establishes policy through the enactment of laws (ordinances) and the adoption of resolutions. The Mayor and Council members are elected “at large”; that is, they represent the entire community. Members are elected for four year terms at general municipal elections which are held every two years, resulting in an overlap in the terms of office. The Mayor and two Council Members are selected at one election (2009), and the remaining four Council Members are chosen in the following election (2011).

***ACCOMPLISHMENTS FY 2008***

- ◆ Maintained 1.1 Police Officers per 1,000 population
- ◆ Approved a meet and confer ordinance to provide for collective bargaining
- ◆ Established an Environmental Task Force
- ◆ Combined the Arts Advisory Board and the Human Relations Commission
- ◆ Merged the Building and Construction Regulations Board functions with those of the Design Review Board
- ◆ Began Vision 2020

- ◆ Changed process for Outside Agency Funding
- ◆ Determined Preferred Company Environment
- ◆ Appointed a new Presiding Judge
- ◆ Opened new Community Center
- ◆ Responded to economic downturn

***OBJECTIVES FY 2009***

- ◆ Review General Plan and Development Code to allow for increased height along designated corridors
- ◆ Review Board and Commission application and interview process
- ◆ Review special events procedures, funding and support
- ◆ Secure site for multi-use facility
- ◆ Review and identify community needs for capital projects

***BUDGET NOTES***

Due to budget constraints, Council authorized a one time reduction of \$56,200 for the FY 2009 budget. A majority of these reductions relate to travel and training expenditures. Reductions will be reevaluated during the budget process for FY 2010.

## PURPOSE STATEMENT

To maintain and repair assigned facilities and associated systems and equipment in proper working order for the safety and effective use of facilities and to respond to facility maintenance and repair needs of customers.

## ACCOMPLISHMENTS FY 2008

- ◆ Coordinated the warranty request for the South Area Service Center facility and Fire Station 1
- ◆ Coordinated the completion work on the South Area Service Center
- ◆ Coordinated with the Fire Department and Parks and Recreation Department on their facilities and installed systems and equipment

## OBJECTIVES FY 2009

- ◆ Hire the most cost effective sub contractor for the work we are unable to perform due to manpower or expertise by obtaining three quotes or hiring lowest qualifying bidder
- ◆ Ensure appropriate and sufficient types and amounts of equipment, furnishings and supplies are available to support the Facilities Maintenance section so we can cost effectively support our customers without costly or timely delays
- ◆ Reduce the number of after hour and emergency calls by performing preventative maintenance

## BUDGET NOTES

Facilities Maintenance reductions for FY 2009 total \$426,000. Of these reductions, \$197,500 is attributed to the South Area Service Center (SASC). The maintenance costs in the Capital Improvement Plan allowed for utility charges to be expensed to the SASC however, due to multiple meters, these expenses were charged out to the appropriate cost centers. A majority of the reductions aligned the budget to actual expenditures. The temporary facilities at the north end of the Municipal Center campus were removed during FY 2008.

**PURPOSE STATEMENT**

To ensure accurate financial reporting on the results of operations and to process financial transactions in an accurate and timely manner. Finance department responsibilities include the general ledger, payroll, accounts payable, accounts receivable, purchasing, special assessments, fixed assets, cash and debt management, grant accounting, and utility billing.

**ACCOMPLISHMENTS FY 2008**

- ◆ Received an unqualified audit opinion on our Comprehensive Annual Financial Report with no material weaknesses in internal controls
- ◆ Received the Certificate of Achievement for Excellence in Financial Reporting for the 16<sup>th</sup> consecutive year from the Government Finance Officers Association (GFOA)
- ◆ Completed all payroll and accounts payable processes and quarterly and year end reports by the required deadlines
- ◆ Canvassed over 800 businesses in Gilbert to monitor compliance with the tax code and developed brochures to educate taxpayers
- ◆ Implemented Council approved changes to the Purchasing Code
- ◆ Implemented utility service at the South Area Service Center, including a payment dropbox
- ◆ Achieved an 80% service level for the utility call center and met all processing objectives

**OBJECTIVES FY 2009**

- ◆ Survey internal customers to determine level of satisfaction
- ◆ Prepare the Comprehensive Annual Financial Report in conformance with Generally Accepted Accounting Principals and GFOA financial reporting excellence criteria
- ◆ Maintain a system of internal controls with no material weaknesses
- ◆ Complete payroll processing by the Wednesday bank deadline each pay period
- ◆ Process and mail accounts payable checks based on department input of invoices by Friday of each week
- ◆ Contract for sales tax audit services with a positive return on our investment
- ◆ Canvass local businesses to determine compliance with the tax code
- ◆ Monitor utility customer service levels and adjust staffing as needed

**BUDGET NOTES**

One FTE was transferred from Accounting to Utility Customer Service. This position works exclusively with the Enterprise funds regarding utility billings. By transferring this position, the overhead transfer from the Enterprise Funds to the Utility Customer Service cost center will cover the cost of this position (\$46,580). Other reductions include removing the pool vehicles from the fleet to reduce maintenance and fuel costs.

**PURPOSE STATEMENT**

The Prosecutor's Office is dedicated to handling criminal misdemeanor cases in a fair and just manner, safeguarding the rights of both the victim and the accused, and protecting the citizens of Gilbert. We are committed to pursuing justice with professionalism and integrity.

**ACCOMPLISHMENTS FY 2008**

- ◆ Recipient of CQI Award for clear understanding of boundaries
- ◆ Number of jury trials increased to at least one, and often two per week
- ◆ Streamlined arraignments by eliminating plea offers on designated offenses
- ◆ Reorganized work area for support staff to promote a cohesive work environment
- ◆ Established policy for all incoming domestic violence long forms to be reviewed on a daily basis
- ◆ Utilizing law student on a volunteer basis from the Phoenix School of Law to assist prosecutors in case preparation and trials

**OBJECTIVES FY 2009**

- ◆ Prevent case continuances as much as possible by setting interviews and sending discovery documents in a timely manner
- ◆ Explore options regarding police officers coordinating their own defense interviews giving the Administrative Assistants more time to assist the Victim Advocate by providing victim notifications in a timely manner
- ◆ Utilize training opportunities provided by Arizona Prosecuting Attorneys' Advisory Council, so that training expenses can be reimbursed
- ◆ Streamline the existing Property Disposition Form, making it apparent what property can be released or destroyed

**BUDGET NOTES**

There is a minimal reduction in the Town Prosecutor FY 2009 budget over FY 2008 adopted budget. This decrease is a net of a market increase and expenditure reductions due to budget constraints. Major reductions include elimination of communication devices (\$1,000) and a cutback in travel expenditures (\$1,500). Also included in the FY 2009 budget is additional revenue (\$2,800) to offset training expenditures.

- ◆ Reduced customer complaints by reducing wait times at the counter from 20 minutes to 15 minutes during high volume times and reducing the average hold time for incoming calls from 2 minutes 29 seconds to 2 minutes 15 seconds while the total volume of calls increased from 30,195 to 46,805

**OBJECTIVES FY 2009**

- ◆ Reduce error rate of court documents (confinement orders, release orders, probation orders, etc) to less than 10%
- ◆ Implement e-payments with automatic disposition and receipting directly to FullCourt automation system
- ◆ Implement electronic processing of MADD documents and electronic disposition reporting to Motor Vehicle Department
- ◆ Submit at least 25% of our eligible cases to the Arizona Supreme Court Fines and Restitution Enhancement program to improve collection efforts
- ◆ Participate in the Tax Intercept Program and submit at least 100 eligible cases to database by January 1, 2009 to improve collection efforts
- ◆ Comply with mandatory state-wide database for Orders of Protection and Injunctions Against Harassment with daily download dumps and electronic processing of orders
- ◆ Disposition of all DUI cases within 180 days
- ◆ Sanctions unit addresses all non-compliance issues within 90 days

**BUDGET NOTES**

Full time equivalents decrease from FY 2008 Adopted as a result of one Court Services Clerk transferring to the Court Enhancement Fund in Special Revenue. In addition, one Police Officer that was authorized for Court Security was eliminated. These Personnel changes as well as \$32,000 in additional expenditure reductions round out the Municipal Court budget for FY 2009.

**COST PER POLICE FTE**

**PURPOSE STATEMENT**

The Patrol Services Division provides the first response to both emergency and non-emergency calls for service including, all crimes in progress, traffic accidents, and reports of felony and misdemeanor crimes. Additional services include search and rescue, community policing, proactive patrol, public safety concerns and traffic enforcement.

**ACCOMPLISHMENTS FY 2008**

- ♦ Met the goal of 5 minutes and 15 seconds for emergency (priority 0) response times (75 seconds to receive/dispatch in communications and 4 minutes for the officers to receive the call and arrive)
- ♦ Met response time goals for all other calls for service while the total dispatched calls for service increased 15%
- ♦ Officer initiated calls for service increased 9%
- ♦ Gilbert remains the safest community in Arizona, with a population over 100,000, based on FBI Uniform Crime Report data
- ♦ Opened the Santan Police Substation in south Gilbert to provide improved police service to that area of town
- ♦ Added one additional patrol beat, bringing the total number of patrol beats to ten
- ♦ Over 91% of citizens participating in the Gilbert Survey indicated they are very satisfied or satisfied with police services.
- ♦ Joined the East Valley Fusion Center to provide prompt shared intelligence and information on criminal activity
- ♦ Instituted a Crime Suppression Officer Program to provide each patrol team with officers who are trained to detect and deter criminal activity associated with street gangs and crimes of violence

**OBJECTIVES FY 2009**

- ♦ Review monthly activity reports to adjust dispatch protocols, personnel allocation to meet the following dispatch to arrival goals:
  - Priority 0 – 4 Minutes
  - Priority 1 – 5 Minutes
  - Priority 2 – 15 Minutes
  - Priority 3 – 45 Minutes
  - Priority 4 – 60 Minutes
- ♦ Provide adequate staffing coverage at all times by adding one beat
- ♦ Increase officers' policing activity and increase arrests and citations by 10%
- ♦ Maintain a satisfaction level of 90% or more based on Gilbert's annual survey
- ♦ Maintain the rating as safest city in Arizona with a population > 100,000
- ♦ Reduce officer involved at fault collisions by 10%

**BUDGET NOTES**

Based on the slow down of growth, no additional officers are included in the FY 2009 budget. The Personnel expenditures increase over FY 2008 Adopted due to a market increase and range adjustments that were implemented during FY 2008. This increase in Personnel is a net increase after a 15% reduction in overtime (\$393,000) was implemented as a result of budget cuts. Other reductions taken in the Patrol Services section of the Police Department include \$173,000 in vehicle related expenses, and \$21,000 in training and travel.

## ***PURPOSE STATEMENT***

The Gilbert Police Department Investigations Division is dedicated to apprehending and prosecuting offenders as well as resolving investigations in a timely and thorough manner. Comprised of the Violent Crimes Unit, Child / Sex Crimes Unit, Property Crimes Unit and Special Investigations Unit, the Criminal Investigations Division investigates complex felony crimes, including: homicide, sexual assault, child abuse/endangerment, robbery, burglary, theft, drug trafficking and racketeering.

## ***ACCOMPLISHMENTS FY 2008***

- ◆ Solved numerous armed robberies, aggravated assaults and attempted homicide cases
- ◆ Worked jointly with other agencies and specialty units to apprehend violent offenders involved in shootings, stabbings and kidnapping cases
- ◆ Staffed an Intelligence Detective at the multi-agency East Valley Gang and Criminal Information Fusion Center
- ◆ Enhanced the section's ability to investigate computer related crimes by training a detective in computer forensics at the Arizona Department of Public Safety's Computer Lab
- ◆ Successfully separated the Person's Crimes Unit into a Violent Crimes Unit and a Sex Crimes Unit, allowing detectives to specialize in these vital areas

- ◆ Trained all of the Violent Crimes Detectives in basic Homicide investigation
- ◆ Hired and trained a civilian investigator to conduct forensic video and audio enhancement, along with digital media redaction
- ◆ Provided information and data to other units within the police department, via Compstat, to enhance proactive enforcement and crime prevention
- ◆ Worked several large narcotics cases involving the coordinated work of local, state and federal agencies resulting in the seizure of over 1500 pounds of marijuana in one case alone valued at approximately 1 million dollars

## ***OBJECTIVES FY 2009***

- ◆ Conduct high quality investigations and maintain high case clearance rates for the fiscal year even with an increasing workload

## ***BUDGET NOTES***

Supplies and Contractual expenses for FY 2009 are reduced 21% from FY 2008 adopted. This reduction has two components; \$91,000 in one time expenditures in the FY 2008 budget due to addition of personnel; and \$46,000 in reductions in the FY 2009 base due to budget constraints. Major areas of reductions include automotive related expenses (\$18,000) and training and travel (\$13,000).

## ***PURPOSE STATEMENT***

The Fire Operations Division is dedicated to protecting the lives and property of our citizens and those who visit Gilbert. We will strive to provide emergency services that meet or exceed national and local standards while maximizing the use of available resources.

## ***ACCOMPLISHMENTS FY 2008***

- ◆ Implemented Target Safety software training curriculum for members to obtain further training
- ◆ Hired and trained thirteen firefighters with a ladder company placed in service
- ◆ Continue efforts towards a four minute travel time response town wide
- ◆ Implemented a hazardous materials team

## ***OBJECTIVES FY 2009***

- ◆ Continue regional partnerships to increase public safety
- ◆ Increase training and education with the Gilbert emergency operation center
- ◆ Apply for, and complete federal grants to augment resources for local and regional responses
- ◆ Maintain a 60 hour per quarter training requirement for sworn personnel
- ◆ Attend regional training with automatic aid partners
- ◆ Maintain a minimum level of "out of service" units to maintain service levels
- ◆ Continue the use of Ladder Tender application to improve efficiency and response
- ◆ Continue to develop strategies to decrease the turnout time for emergency calls

## ***BUDGET NOTES***

Personnel costs increase 4.5% over FY 2008 adopted budget due to the net of the following items: market increase, mid year hires in FY 2008, and a reduction in overtime of \$139,000. Contractual expenses decrease due to \$379,000 of one time expenditures budgeted in FY 2008 and \$184,000 in reductions for FY 2009 due to budget constraints. Transfer of \$832,000 is the General Fund portion of the Fire Hydrant Installation capital project.

**COST PER SINGLE FAMILY RESIDENCE**

**PURPOSE STATEMENT**

To make our community a safe place to live and work by embracing fire prevention principals through fire plan review, community service education, fire code compliance, and fire investigation. This is accomplished through partnering with various elements of our community including local business and development, schools, and residents.

**ACCOMPLISHMENTS FY 2008**

- ◆ Held an East Valley Safety Walk for drowning prevention and targeted 6,500 Gilbert Homes
- ◆ Held our 1st ever back to school shopping event and took 35 underprivileged children shopping
- ◆ Partnered with the Phoenix Coyotes to educate Gilbert school children in grades 4th-6th on helmet safety
- ◆ Elected Vice President of Maricopa County Safe Kids Coalition for injury prevention
- ◆ Brought on board a new AzPOST Certified Fire Investigator to streamline arson case management and conviction
- ◆ Completed annual inspection and hazard mitigation for all town owned buildings
- ◆ Completed annual school inspections for life safety issues
- ◆ Hired two additional fire inspectors to conduct the annual inspection program
- ◆ Trained an Arizona State University Intern in fire prevention skills
- ◆ Both fire investigators earned their Certified Fire Investigator certification from the International Association of Arson Investigators

**OBJECTIVES FY 2009**

- ◆ Maintain school-wide injury prevention programs for 1<sup>st</sup> grade
- ◆ Inspect high hazard occupancies a minimum of two occupancies per month
- ◆ Maintain a level of acceptable compliance and life safety in public buildings through inspection surveillance
- ◆ Correct deficiencies and non-compliance issues that posses direct hazards within a 60 day time frame
- ◆ Provide specific demographics of fire activities in relation to cause, property loss and findings of injury or fatality
- ◆ Provide Juvenile Fire Setter education as referred by courts or parent initiated request
- ◆ Provide school injury program for 1st grade
- ◆ Provide education programs on identified high risk activities within the community

**BUDGET NOTES**

Personnel costs increase over FY 2008 adopted due to market adjustments and two positions transferred from Inspection and Compliance Fire in the Development Services department. The transfer of these positions to Fire is offset by additional revenue for inspections. The increase in contractual expenses is due to a net of \$10,000 in reductions due to budget constraints and additional expenditures for the two Senior Fire Inspector positions.

**BUSINESS UNIT DESCRIPTION**

---

Public Works Administration provides oversight to the Departments that plan for, operate and maintain Gilbert's infrastructure to maximize life of assets - including streets, water, wastewater, reclaimed water, and storm drainage. The staff plans for the long term efficient use of water and reclaimed water resources. Oversight is also provided to solid waste disposal and recycling to ensure health and aesthetics standards.

Detail on Enterprise Funds (Water, Wastewater, Residential Solid Waste, Commercial Solid Waste, and Irrigation) and Street Fund are found under separate tabs.

---

**GOALS FY 2009**

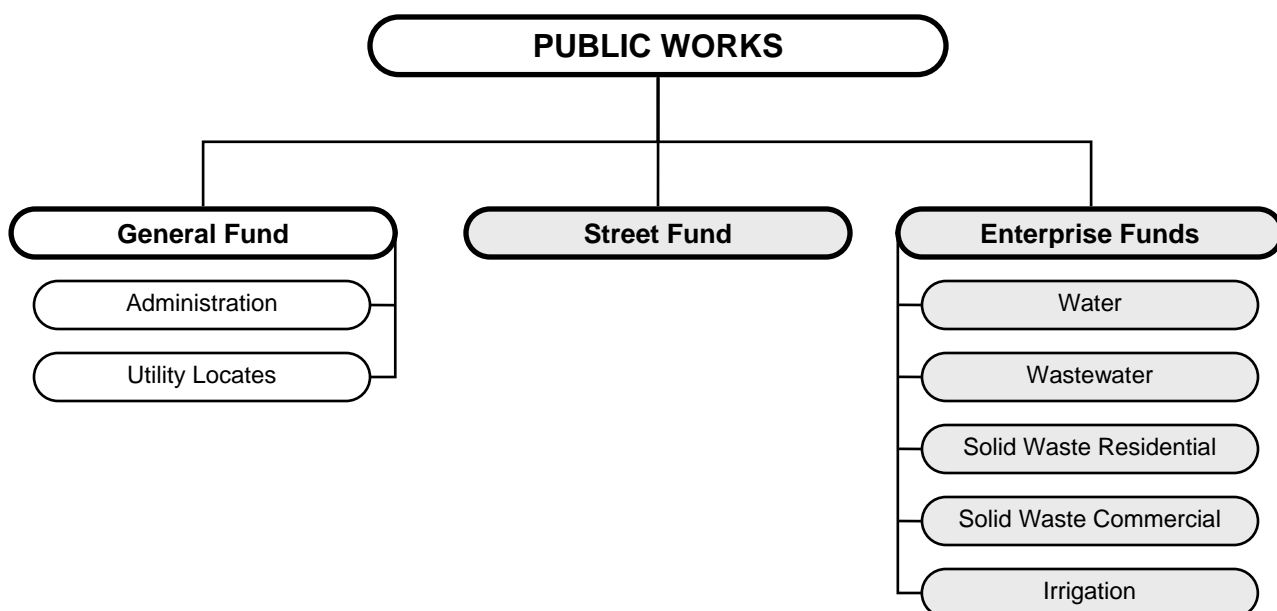

---

- ◆ Plan for build-out water system capacity by securing and/or planning for purchase of the remaining well and reservoir sites
- ◆ Reduce the exposure of a 100-year flood event on the Queen Creek Wash by working with developer and the Flood Control District of Maricopa County to construct these channels with 100-year flood event capacity within the Gilbert planning area
- ◆ Participate with the Flood Control District of Maricopa County in reviewing and submitting for Federal Emergency Management Agency review, the new flood hazard maps for Gilbert's planning area
- ◆ Prevent public health hazards and minimize inconveniences to customers by responsibly coordinating Mosquito Control operations in Parks and Parkway Improvement Districts.

**COST PER PUBLIC WORKS EMPLOYEE**

## ***PURPOSE STATEMENT***

The goal of Gilbert's Mosquito Control Program is to protect the health and safety of the public and provide safe, reliable, and cost effective mosquito and midge fly treatment and prevention operations at municipally owned and operated facilities.

## ***ACCOMPLISHMENTS FY 2008***

- ◆ Continued to conduct scheduled contract mosquito and midge fly fogging and larvicide treatments in designated program areas
- ◆ Distributed outreach materials and information to help educate the public regarding mosquito control and West Nile Virus prevention
- ◆ Continued to coordinate with Maricopa County Vector Control regarding mosquito control and West Nile Virus monitoring and education
- ◆ Continuously evaluated the contracted mosquito control program and identified and incorporated all new areas that qualified for the scheduled fogging operations
- ◆ Monitored the contracted mosquito and midge fly control program through coordination efforts with the contractor and spot inspections of treatment areas
- ◆ Employees in the Effluent Reuse and Recharge Branch obtained and held certifications for pesticide application so mosquito larvicide treatments could be conducted internally on Town properties

## ***OBJECTIVES FY 2009***

- ◆ No objectives for FY 2009 due to elimination of program

## ***BUDGET NOTES***

Due to budget constraints, the Mosquito Control program has been eliminated from the FY 2009 budget. Maricopa County will continue to fund their mosquito control program which impacts Gilbert residents.

**PURPOSE STATEMENT**

Gilbert has two separate intergovernmental agreements with Maricopa County for Incarceration and Animal Control. Animal control promotes and protects the health, safety and welfare of pets and people. Incarceration is provided as a punishment for crimes committed and a deterrent to future crime. Incarceration is the cost to Gilbert for jail sentences imposed by the Municipal Court.

**BUDGET NOTES**

Incarceration booking fees are increasing from \$189.23 per inmate to \$199.35 per inmate for FY 2009. Gilbert is continuing to pursue an IGA with Maricopa County for Incarceration.

**PURPOSE STATEMENT**

The purpose is to augment funding for various social service agencies that provide service in Gilbert.

**BUDGET NOTES**

A new process was developed this fiscal year to present funding recommendations to Council. Staff reviewed and ranked the eligible applications and then used a multi-step process to develop funding recommendations. The Committee held a public hearing with the applicants on March 24, 2008. Each applicant was allowed 3-5 minutes to summarize their funding request. Committee members had a week after the hearing to develop their funding recommendations. Their individual scores and recommendations were averaged by staff and presented to the Committee at their March 31 meeting. The Committee then came to a consensus on the funding recommendation for each application. Additional adjustments were made to bring the total amount recommended to the funding allocation available.

## PURPOSE STATEMENT

Transportation includes contracts with Phoenix-Mesa Gateway Airport and the Regional Public Transportation Authority (RPTA) for bus service. RPTA's mission is to promote the social and economic well being of the community through an efficient and effective regional transit system, as a valued and significant component of the transportation network. The mission of Phoenix-Mesa Gateway Airport is to develop a safe, efficient, economical and environmentally acceptable air transportation facility.

## BUDGET NOTES

As a result of regional funding provided by Proposition 400, a new super grid service started on Williams Field Road (Route #156) this fiscal year. The billing by the Regional Public Transit Authority is based on cost to provide public transportation.

**FUNDS DESCRIPTION**

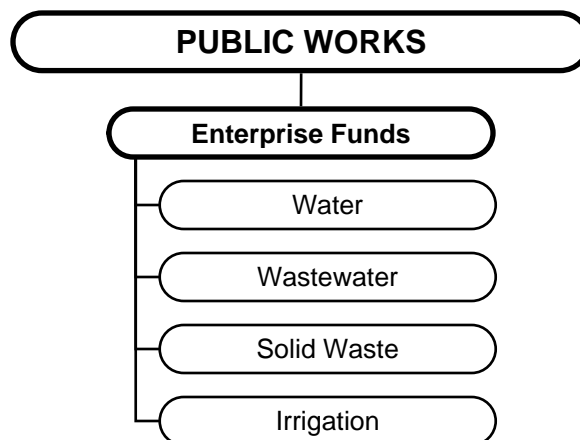

Enterprise Funds are designed to allow a government operation to reflect a financial picture similar to a business enterprise. Gilbert operates these funds on the philosophy that the fees charged will cover 100% of the cost of these services – including cost of internal support from the General Fund. The following funds are included in the Enterprise Fund type.

- Water:** Insure a safe and dependable water supply
- Wastewater:** Provide a safe and dependable wastewater collection and treatment system
- Solid Waste:** Manage the integrated solid waste operation to provide environmentally sound collection and disposal of solid waste
- Irrigation:** A small area (125 customers) in Gilbert is served with flood irrigation water for landscape use

**FUND ACTIVITY**

The following is a statement of revenue, expenses and transfers for the Enterprise Funds based on the adopted budget for FY 2009.

## ***PURPOSE STATEMENT***

To ensure Gilbert's water supply is used in the most efficient manner, and that Gilbert complies with State regulations regarding water conservation which include meeting the target gallons per person per day water use of 220 gallons.

## ***ACCOMPLISHMENTS FY 2008***

- ◆ Developed a new in-house educational program for Grades 2 thru 5
- ◆ Contracted through with the Arizona Puppet Theater to demonstrate water conservation techniques and lessons

## ***OBJECTIVES FY 2009***

- ◆ Comply with the non per capita state conservation mandated measures to ensure an adequate water supply
- ◆ Monitor the mandated conservation measures that apply to Gilbert to ensure all measures are in compliance on an annual basis and report annually on each measure
- ◆ Hold the required number of workshops as determined by the conservation measures and continue to educate the public at each available opportunity above and beyond the conservation requirements

## ***BUDGET NOTES***

## COST PER CAPITA

**PURPOSE STATEMENT**

To facilitate the production of a safe and dependable water supply to meet all seasonal daily demands for water. To meet all Federal, State and Local water quality requirements. Maintain sufficient water pressure throughout the Town's water service area to meet all residential, commercial, fire and emergency needs.

**ACCOMPLISHMENTS FY 2008**

- ◆ Added another dual zone 2 and zone 4; a 2 MGD reservoir and booster station 26 at Baseline West of Recker and designing a well at this location
- ◆ Added arsenic mitigation facility for well 21
- ◆ Added dual zone 2 and zone 3; a 2 MGD reservoir and booster station at Greenfield and Chandler Heights
- ◆ Met the distribution needs for groundwater production
- ◆ Utilizing other chemical vendors for chlorination at some well sites to give us better dosing capabilities and cost savings
- ◆ Met the water demands of the community as well as maintained the pressure in the four pressure zones during the expansion to 45 MGD
- ◆ Due to changing raw water quality and information from other water facilities chemical testing was performed which resulted in a change to the chemical process that increased filter efficiency

**OBJECTIVES FY 2009**

- ◆ Monitor total water production and align with the water availability and acquisition process
- ◆ Actively emphasize methods and means for facilitating total water production, storage and boosting capacity to meet customer daily demands
- ◆ Treat both surface and groundwater to meet all water quality regulations for federal, state and county
- ◆ Maximize the use of surface water
- ◆ Participate in design of water production facilities to ensure they meet daily water demands
- ◆ Schedule and monitor sampling program for all designated EPA parameters
- ◆ Respond to emergency customer contacts within one hour to minimize customer service disruption and property damage, while reducing possibility of system contamination
- ◆ Maintain a maintenance inventory of work orders in GBA Master Series database
- ◆ Keep GIS data current with maintenance activities
- ◆ Distribute educational brochures and information to customers

**BUDGET NOTES**

Budget increases include the addition of a new treatment plant starting operation in the last half of FY 2009. A one time expenditure of \$180,000 is included in the budget for an ICP Mass Spectrometer for Water Quality.

**PURPOSE STATEMENT**

To maintain all water system piping and structures associated with the transmission and distribution of water throughout the Town's water service area.

**ACCOMPLISHMENTS FY 2008**

- ◆ In cooperation with the Fire Department began fire hydrant exercising program to allow for each fire hydrant (9,200) to be exercised twice a year
- ◆ Began a comprehensive valve exercising program that will facilitate the exercising of all system valves and the identifying of defective valves and those valves that are not visible from the street grade (buried)
- ◆ Identified and repaired 150 small water leaks to lower the amount of unaccounted for water
- ◆ Did not allow a water main break to cause a water outage of more than eight hours

**OBJECTIVES FY 2009**

- ◆ Respond to emergency customer contacts within one hour to minimize customer service disruption and property damage, while reducing the possibility of system contamination
- ◆ Maintain a maintenance inventory of work orders in GBA Master Series
- ◆ Keep GIS current with maintenance activity
- ◆ To work with contractors so that they can make timely additions and improvements to the water system with minimum system disruption
- ◆ To receive and respond to all Arizona Blue Stake tickets in a timely manner

**BUDGET NOTES**

Personnel budget increases over FY 2008 as a result of a market increase. Transfers include \$1,505,000 to the Water Capital Improvement fund for Distribution projects and \$2,504,510 for Water Distribution infrastructure replacement. There are no new budget requests for FY 2009.

**FUND DESCRIPTION**

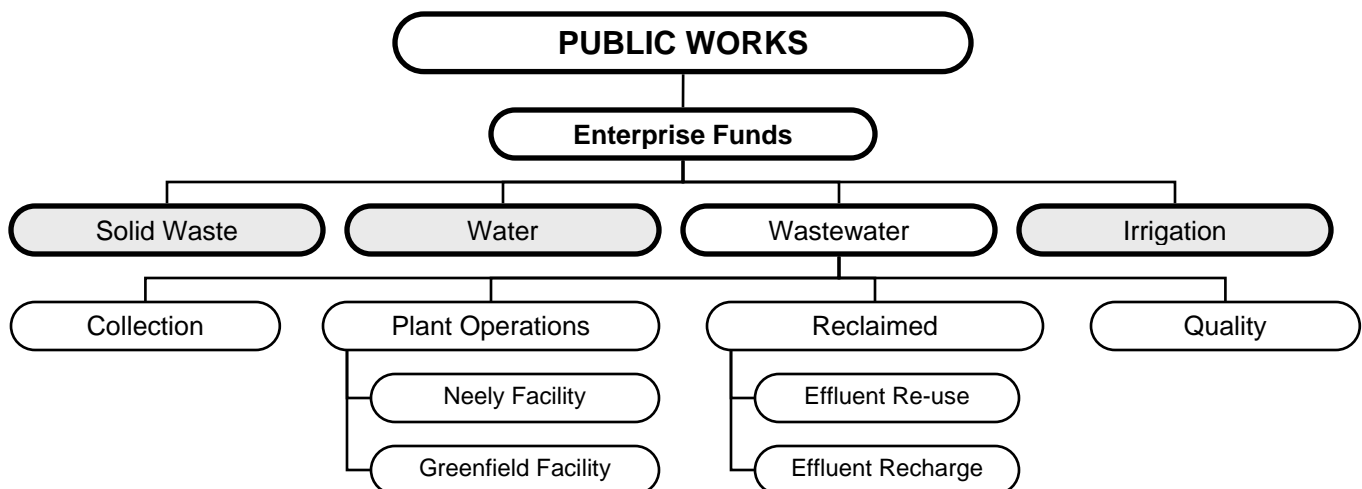

The Town of Gilbert's wastewater fund is financed and operated in a manner similar to private business enterprises. Costs of providing the services to the public are financed through user charges. The mission of the Wastewater Section is to protect the health and safety of the public and provide reliable and efficient wastewater collection, wastewater treatment, effluent reuse and recharge, wastewater discharge monitoring of industrial and commercial businesses, and management of the mosquito control program all in a cost effective manner. To responsibly and efficiently accomplish this mission, goals have been established for each functional area. In order to maintain proactive operation and maintenance programs, proper planning is conducted to accurately assess and anticipate the needs of the public and infrastructure. The Wastewater Section maintains the necessary tools, equipment, and properly trained and skilled personnel in order to meet the public's expectations and resolve problems at the appropriate staff level.

---

**GOALS FY 2009**

- ◆ Prevent public and environmental health hazards
- ◆ Minimize inconveniences to customers by responsibly handling interruptions in service
- ◆ Protect the large investment in the infrastructure by continuously assessing its condition and acting appropriately to maintain and extend its useful life
- ◆ Provide and operate a water re-use system to provide reclaimed water for irrigation uses reducing the use of potable water
- ◆ Ensure reclaimed water recharge capacity is available to meet the demand
- ◆ Ensure short and long term wastewater treatment capacity is available to meet demands created by industrial, business and population increases
- ◆ Educate customers regarding services and programs provide
- ◆ Ensure workers are safe

## PURPOSE STATEMENT

The Wastewater Collection Branch is dedicated to providing safe, reliable, efficient, and cost effective operation and maintenance of the wastewater collection system which includes sewer lines, sewer manholes, lift stations, and force mains.

## ACCOMPLISHMENTS FY 2008

- ◆ Provided safety training to all Wastewater Collection personnel
- ◆ Completed a written Capacity, Management, Operations, and Maintenance Plan for Gilbert's wastewater system
- ◆ Identified and rehabilitated sanitary sewer manholes impacted by corrosion
- ◆ Completed the expansion of the Crossroads wastewater lift station site
- ◆ Performed daily inspections and routine maintenance at all lift station sites
- ◆ Performed odor control activities throughout the wastewater collection system
- ◆ Cleaned 23% of the sewer system to prevent sewer line blockages, overflows, and odors
- ◆ Inspected 20% of the sewer system using television inspection equipment to identify problem areas that can lead to sewer line blockages, overflows, and deterioration of the infrastructure
- ◆ Treated 4,000 sewer manholes for roach control

## OBJECTIVES FY 2009

- ◆ Clean a minimum of 25% of the sanitary sewer system each fiscal year to prevent sewer line blockages, overflows, and odors
- ◆ Inspect a minimum of 25% of the sanitary sewer system using television inspection equipment each fiscal year to identify problem areas that can lead to sewer line blockages, overflows, and long term deterioration of the infrastructure
- ◆ Respond to emergency customer contact events within a one hour to minimize health, safety, and environmental hazards
- ◆ Inspect all lift station sites daily to verify proper operational performance and perform scheduled preventive maintenance on all related controls and equipment
- ◆ Distribute educational information to customers during service calls and public outreach events
- ◆ Conduct annual employee safety training for specific operational tasks to ensure that operations are performed correctly and safely

## BUDGET NOTES

Personnel budget increases for FY 2009 include the addition of a Utility Field Supervisor. All costs associated with the new position are included in the budget. The increase in supplies and contractual includes \$117,000 for one time wastewater system repairs and maintenance at the Crossroads storm pump station and the Gilbert Commons wastewater lift station.

## **PURPOSE STATEMENT**

Wastewater Plant Operations are dedicated to providing safe, reliable, efficient, and cost effective operation and maintenance of the wastewater treatment operations, sludge wasting operations, and effluent production.

## **ACCOMPLISHMENTS FY 2008**

- ◆ Began full operation of the new Greenfield Treatment Facility partnership with the City of Mesa and Town of Queen Creek
- ◆ Performed scheduled preventative maintenance on all wastewater treatment plant controls and equipment
- ◆ Participated in the first Local Limits Study associated with the Greenfield Treatment Facility in partnership with the City of Mesa and Town of Queen Creek

## **OBJECTIVES FY 2009**

- ◆ Conduct routine meetings with the Neely Treatment Facility operations contractor (Severn Trent) to evaluate plant operations

- ◆ Conduct routine meetings with the Greenfield Treatment Facility operations staff (City of Mesa) to evaluate plant operations
- ◆ Continuously track and conduct treatment plant capacity evaluations with the Neely Treatment Facility operations contractor (Severn Trent)
- ◆ Continuously track and conduct treatment plant capacity evaluations with the Greenfield Treatment Facility operations agency (City of Mesa)
- ◆ Conduct daily coordination with the Neely Treatment Facility operations contractor (Severn Trent) and the Greenfield Treatment Facility operations staff (City of Mesa) regarding reclaimed water production operations
- ◆ Evaluate reclaimed water quality by tracking test results from the Neely Treatment Facility and Greenfield Treatment Facility

## **BUDGET NOTES**

Contractual costs to operate the Neely Treatment Facility in FY 2009 are anticipated to increase by \$361,510, while the budget to operate Greenfield Treatment Facility is anticipated to decrease by \$350,000.

## COST PER MILLION GALLONS TREATED

## ***PURPOSE STATEMENT***

The Effluent Reuse and Recharge Branches are dedicated to providing safe, reliable, and cost effective operation and maintenance of the effluent reuse infrastructure and facilities which includes reclaimed water lines, valves, meters, recovery wells, reservoirs, ground water recharge facilities, injection wells, and monitor wells. Effluent Reuse and Recharge Branch operations help provide a reduction and reliance of potable water sources for parks, high water use landscaping areas, and lake developments. It also provides wildlife habitat and aquifer replenishment through groundwater recharge facility operations.

## ***ACCOMPLISHMENTS FY 2008***

- ◆ Provided safety training to all Effluent Reuse and Recharge Personnel
- ◆ Continued to conduct pressure monitoring of the distribution system to track performance
- ◆ Disked/ripped all recharge basins as needed
- ◆ Exercised reclaimed water system valves
- ◆ Inspected and maintained all water meters
- ◆ Performed all permit required water quality sampling and monitoring and submitted regulatory reports on schedule
- ◆ Activated the south area reclaimed water distribution system upon startup of the Greenfield Water Reclamation Plant and began delivering to south area customers
- ◆ Began reclaimed water delivery to the new South Recharge Facility

## ***OBJECTIVES FY 2009***

- ◆ Perform water quality sampling and monitoring of reclaimed water and recovered water to ensure compliance with regulations
- ◆ Respond to emergency customer contact events within a one hour to minimize hazards and interruptions in service
- ◆ Exercise all reclaimed water system valves once annually to verify operability
- ◆ Monitor reclaimed water meter accuracy
- ◆ Inspect all well sites, reservoirs, and pump stations daily to verify proper performance
- ◆ Perform scheduled preventive maintenance on related pumping equipment and controls
- ◆ Monitor and distribute reclaimed water and recovered water supplies to customer sites daily to meet irrigation demands, thus reducing the use of potable water
- ◆ Monitor and track reclaimed water delivered to groundwater recharge operations
- ◆ Distribute educational brochures and information to customers relating to effluent reuse and recharge operations
- ◆ Conduct annual safety training for specific operational tasks to ensure that operations are performed correctly and safely

## ***BUDGET NOTES***

Personnel budget increases for FY 2009 include the addition of a Utility Field Supervisor. All costs associated with the new position are included in the budget. Other budget increases include regulatory permit fees, lab and testing supplies, and weed mitigation equipment for the three recharge facilities.

## COST PER MILLION GALLONS PRODUCED/REUSED

**PURPOSE STATEMENT**

The Wastewater Quality Branch is dedicated to providing safe, reliable, and cost effective pollution control activities relating to the wastewater discharge of commercial and industrial businesses. Wastewater Quality Branch operations strive to maintain pollutant levels in the wastewater stream below those levels mandated by regulations and oversight agency agreements.

**ACCOMPLISHMENTS FY 2008**

- ◆ Provided the necessary safety training to all Wastewater Quality Personnel
- ◆ Continued to inspect commercial businesses of concern for compliance with Wastewater and Storm Water code requirements and to ensure that proper pretreatment device operation and maintenance is being performed
- ◆ Performed required inspections and sampling events at significant industrial user sites and submitted regulatory reports to oversight agencies on schedule
- ◆ Continued to participate in the multi-city coordination group meetings to align commercial pretreatment program compliance strategies and education

**OBJECTIVES FY 2009**

- ◆ Perform annual inspections and sampling activities at all industrial users requiring a wastewater discharge permit to ensure compliance with regulatory requirements
- ◆ Inspect and educate all commercial businesses of concern once annually to verify compliance with wastewater and storm water code requirements and ensure that proper pretreatment device operation and maintenance is being performed
- ◆ Review and process all business registrations to obtain familiarity with business operations relating to wastewater code requirements
- ◆ Distribute related educational brochures and information to customers during inspections, service calls, and at public outreach events
- ◆ Conduct annual safety training for specific operational tasks to ensure that operations are performed correctly and safely

---

**FUND DESCRIPTION**

---

The Solid Waste mission is to manage Gilbert's integrated solid waste operations and to provide environmentally sound and economically cost effective services to meet the needs of the residents and commercial, industrial, and institutional establishments. Gilbert's solid waste activities are financed and operated in a manner similar to private business enterprises, where costs of providing the services to the customers (both residential and commercial) are financed through user charges.

These operations and services are directed toward ensuring the public health and welfare through the collection and disposal of solid waste (garbage, hazardous waste and recyclable materials) from residential and commercial/industrial sources, educating members of the general public and business community regarding the proper disposal of wastes, and encouraging the diversion of waste from landfills through the recycling, reuse, and recovery of selected materials.

We set objectives for the activity areas to responsibly and efficiently accomplish our mission and to better track our effectiveness. Solid waste maintains the necessary tools, equipment, and properly trained and skilled personnel in order to meet our customer's expectations and resolve problems at the appropriate level of responsibility.

---

**GOALS FY 2009**

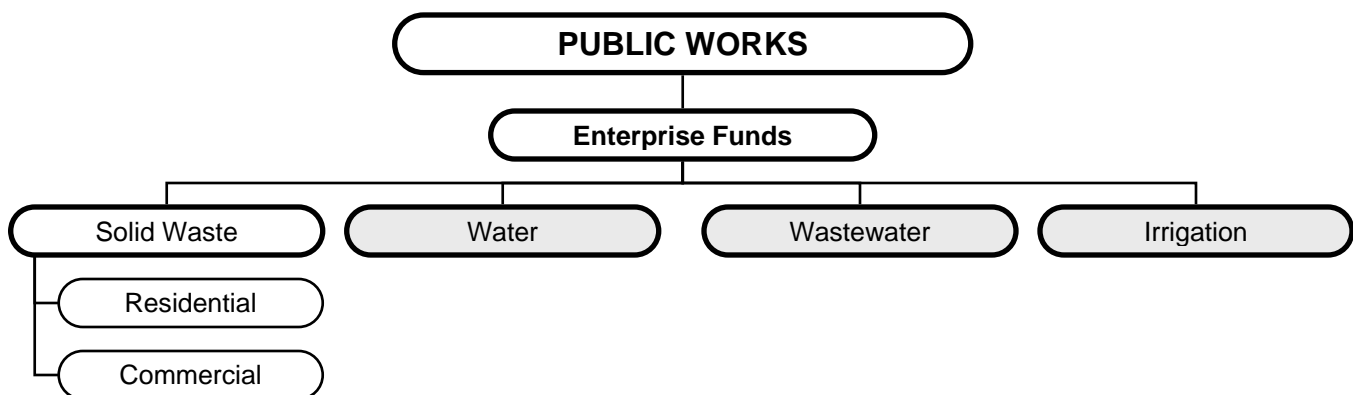

---

- ◆ Pursue Solid Waste disposal options through a long term agreement providing flexibility in disposal locations
- ◆ Minimize waste disposed at landfill and optimize the economic return on the Gilbert recycle materials
- ◆ Ensure customers are satisfied with service and create partnerships and loyalty with the residential and business sector
- ◆ Ensure that solid waste programs are cost effective and efficient
- ◆ Ensure safe and sanitary disposal options are implemented

[Irrigation Summary](#)

---

**FUND DESCRIPTION**

---

Flood Irrigation provides irrigation water to about 125 customers of the flood irrigation system for landscape maintenance and reduced reliance on the municipal water system. Fees are charged to the customers, but the revenue does not cover the entire cost so this Enterprise fund is subsidized by a transfer from the General Fund.

---

**GOALS FY 2009**

---

- ◆ To provide uninterrupted irrigation service
- ◆ To coordinate with Salt River Project schedulers to assure proper scheduling in order to provide consistent service

**FUND DESCRIPTION**

---

It is our mission to provide a safe, reliable, and efficient roadway system that encompasses the following operations; streets, traffic control systems, rights-of-way and storm drain systems as well as operating and maintaining the Heritage District flood irrigation system. The financial information relating to the Heritage District flood irrigation system is found under the Enterprise Tab - Irrigation Fund.

To responsibly and efficiently accomplish our mission, we have set goals for each of our respective responsibility areas. We recognize that in order to maintain proactive operation and maintenance programs we must do a good job of planning, work well as a team and with others, and accurately assess and anticipate the needs of our customers and of the infrastructure. The street section maintains the necessary tools, equipment, and properly trained and skilled personnel in order to meet our customer's expectations and resolve problems at the most appropriate level of responsibility. State shared gasoline tax, and state shared lottery revenues fund Gilbert's street maintenance section.

---

**GOALS FY 2009**

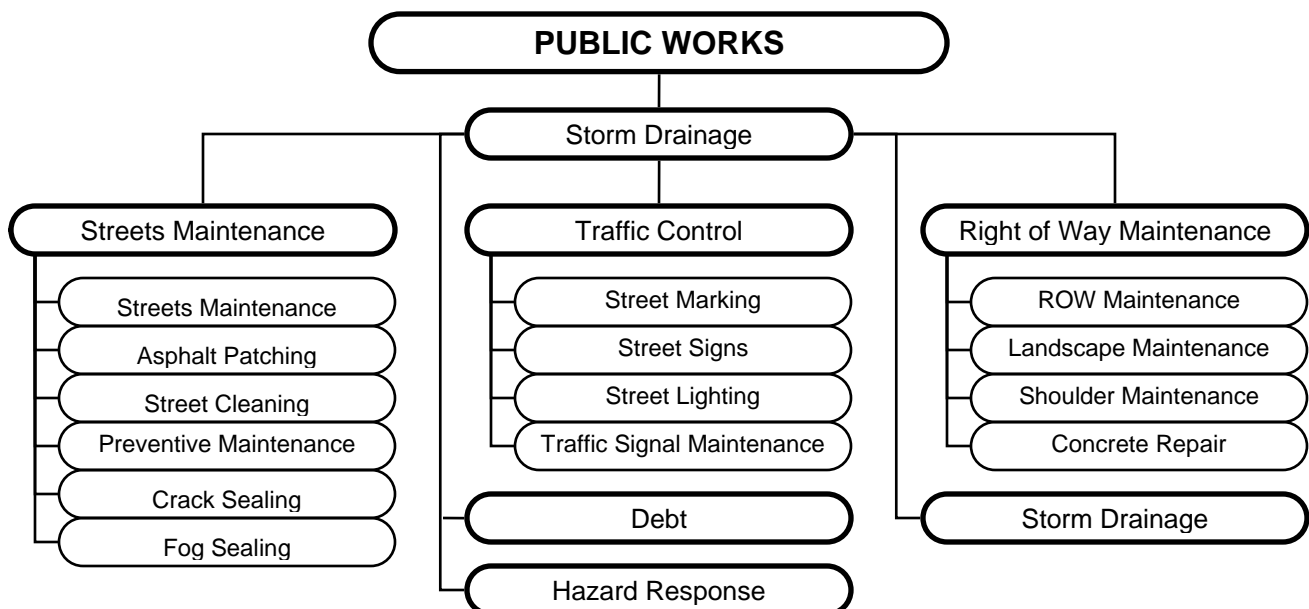

---

- ◆ To maintain a safe and efficient roadway system at a pavement condition index of at least 80
- ◆ Minimize inconveniences to customers by performing maintenance and repair operations in an organized and timely manner
- ◆ Protect the large investment of the roadway system by continuously assessing its condition and acting appropriately to maintain and extend its useful life
- ◆ Use available funds to improve efficiency and productivity of operations by implementing appropriate standards

## **PURPOSE STATEMENT**

To maintain the roadway system ensuring a high degree of reliability, safety and ride ability, meeting or exceeding all applicable regulations for roadways in a cost effective manner.

## **ACCOMPLISHMENTS FY 2008**

- ◆ Patched 80% of the pot holes within 3 hours of notification
- ◆ Cracked sealed 100% of the subdivisions scheduled for maintenance
- ◆ Conducted 5% of visual street ratings completed this year In-House vs. 0% in previous years
- ◆ Current with total lane miles captured in pavement maintenance system vs. actual miles in the field
- ◆ Improved our Pavement Condition Index (PCI) by following our Pavement Life Cycle to the best of our ability
- ◆ 100% of all arterial and residential roadway maintained was cleaned no less than twice per month
- ◆ Completed Utility Adjustments four or less days after road improvements were completed.

## **OBJECTIVES FY 2009**

- ◆ Preserve the condition of paved streets with a minimum desired level of 85 PCI and a minimum acceptable level of 80 PCI
- ◆ Resolve all trip hazards within the same day
- ◆ Complete all utility adjustments within 30 days after street maintenance is complete
- ◆ Sweep all residential subdivisions twice per month
- ◆ Sweep all arterial streets no less than twice a month
- ◆ Patch 100% of pot holes and sink holes that are called in within 3 hours of notification
- ◆ Mill and patch 100% of all subdivisions that are scheduled to be fog or slurry sealed
- ◆ Repair 100% of water and wastewater patches within three days after water or wastewater has completed work on main breaks
- ◆ Crackseal 100% of subdivisions and arterials prior to scheduled maintenance
- ◆ Ensure that 33% of Gilbert is being visually rated per year
- ◆ Convert to 50% of in-house visual ratings with an ultimate goal of 100%
- ◆ Sweep a minimum of five broom hours daily per driver
- ◆ Continue to Sweep 100% of maintained Roadway no less than twice per month

## **BUDGET NOTES**

Personnel budget increases over FY 2008 as a result of a market adjustment.

## COST PER LANE MILE

**PURPOSE STATEMENT**

To operate and maintain the traffic control systems to improve safety by regulating the flow of traffic, increasing visibility, ensuring a high degree of reliability, meeting or exceeding all applicable regulations

**ACCOMPLISHMENTS FY 2008**

- ◆ Initiated the GBA work order software for Street Lights, and Traffic Signals

**OBJECTIVES FY 2009**

- ◆ Long line will re-paint all quadrants, major arterial roadways and collector streets once a year
- ◆ Short line will inspect and maintain 100% of all linear striping to stay within the Manual on Uniform Traffic Control Devices reflected stands and to Gilbert standard details once a year
- ◆ To replace 10% of existing signs per year
- ◆ Replace damaged stop signs within three hours of notification
- ◆ Provide initial street light knockdown response within one hour of notification and replace within five business days

- ◆ Repair signals in flash or dark in all directions – other than power outage – within four hours
- ◆ Repair emergency vehicle pre-emption detection calls within 48 hours
- ◆ To manage all work orders generated for signs within three business days
- ◆ To complete all street lighting work orders within two business days
- ◆ Prioritize knockdowns or damaged signal infrastructure with the damage matrix and make needed repairs within 24 hours
- ◆ Perform arterial night inspections of street lighting on the first Tuesday of every month
- ◆ Perform bi-annual subdivision night inspections of street lighting
- ◆ Test all traffic signal conflict monitors once per year
- ◆ Paint 10% of traffic signal intersections annually

**BUDGET NOTES**

Personnel budget increases over FY 2008 as a result of a market adjustment. The increase in Contract and Supplies for FY 2009 reflects adjustments for utilities as well as maintenance costs associated with completed street light projects.

### **PURPOSE STATEMENT**

To maintain aesthetics and drainage within right of way, control dust, and prevent spread of noxious weeds.

### **ACCOMPLISHMENTS FY 2008**

- ◆ Rodeo Grounds soil stabilization project complete
- ◆ Prepared a new contract for the right of way (ROW) and the Heritage District dividing the areas into 3 separate contracts; changed the frequencies and changed the format from general areas to sq/ft. of landscaped area, non-landscaped area and hardscaped areas
- ◆ Implemented GIS usage to record sq/ft of landscaped, non landscaped and hardscaped areas by quadrant
- ◆ Complied with PM10 dust control regulations for shoulders and dirt roads by grading and applying dust retardant agents
- ◆ Inspected 83 dry wells for compliance which resulted in cleaning of 3 so that all are in compliance
- ◆ Inspected, video recorded and logged into a data base the majority of our storm drains for debris, breaks or cracks and other obstructions

### **OBJECTIVES FY 2009**

- ◆ Maintain shoulders for safety, asphalt preservation, safe pullout in emergency situations, proper storm water drainage and weed control while following all state, county
- ◆ Maintain all dirt roads and shoulders in compliance with the state and local mandated laws
- ◆ Research and find a dust abatement product that will meet the needs of Gilbert and be cost effective and efficient

- ◆ Complete a tree and shrub inventory in the Rights of ways and in the Heritage district
- ◆ Devise a plan for our tree trimming to create a healthy environment for our trees
- ◆ Contractor to maintain all landscaped areas clean and free of noxious weeds and debris every two weeks
- ◆ Locate via GIS the sq/ft of landscaped, non landscaped and hard scaped areas identified by exact location (specific median, sidewalk, retention etc.)
- ◆ Identify and maintain a tree inventory specific to the location
- ◆ Identify and map all irrigation controllers and backflow devices
- ◆ Contractor to maintain all irrigation with properly functioning irrigation systems and keep all water schedules up to date by using the minimum amount of water to keep a healthy landscape
- ◆ Reconstruct shoulders after water damage due to storms, leaking flood irrigation or other events within five working days
- ◆ Inspect 100% of shoulders for safety, asphalt preservation, safe pullout in emergency situations, and appropriate storm water drainage and weed control three times per year
- ◆ Inspect all dry wells and clean as needed

### **BUDGET NOTES**

Personnel budget increases over FY 2008 as a result of a market adjustment. Increases in supplies and contractual included adjustments for landscape maintenance contracts changes and chemicals.

## ***PURPOSE STATEMENT***

To keep right of way clear of driving hazards and unsightly graffiti within expected times.

## ***ACCOMPLISHMENTS FY 2008***

- ◆ Removed 100% of the dead animals from the right of way with one hour of the call
- ◆ Removed 90% of the graffiti within 48 hours of notification from the police department
- ◆ Delivered 100% of the barricades on the scheduled date

## ***OBJECTIVES FY 2009***

- ◆ Respond to 100% of dead animal calls with the right of way within one hour of receiving the request
- ◆ Deliver 100% of block party barricades on scheduled dates
- ◆ Respond to 100% of graffiti within 48 hours of Police Department notice

## ***BUDGET NOTES***

During FY 2008 Hazard Response was taken out of the Streets Maintenance group and put into its own unit within a new Support division of Streets. Personnel budget increased over FY 2008 as a result of a market adjustment. Supplies and contractual budget increases are the result of increases in fuel, graffiti remover, paint, cones and barricades.

---

**FUND DESCRIPTION**

---

The Internal Service Funds provide a method to charge the internal user of services based on their use. The concept is the same as Enterprise Funds, except the customers are internal. Gilbert has set up the following Internal Service Funds:

- ◆ **Fleet Maintenance** – Maintenance of all passenger vehicles.
- ◆ **Copy Services** – Coordination of printing and internal photocopying.
- ◆ **Health Self Insurance** – Accounting for self insurance for health coverage under direction of a Trust Board.

The goal of these funds is to charge internal users for 100% of the cost of the service.

---

**FUND NARRATIVE**

---

**Fleet Maintenance** undergoes a rate review annually. This year the hourly rate is proposed to increase to \$80 per hour. The hourly rate is calculated based on the total labor related budget amounts divided by an estimate of productive hours. A percentage is added to the sale of parts to cover the cost of shop and operating supplies. The parts mark up percentage is 27%. Fuel has a mark up of 15 cents per gallon to cover the cost of maintaining and replacing the fueling system. The proposed fee for the truck wash at the South Area Service Center is \$15 per wash.

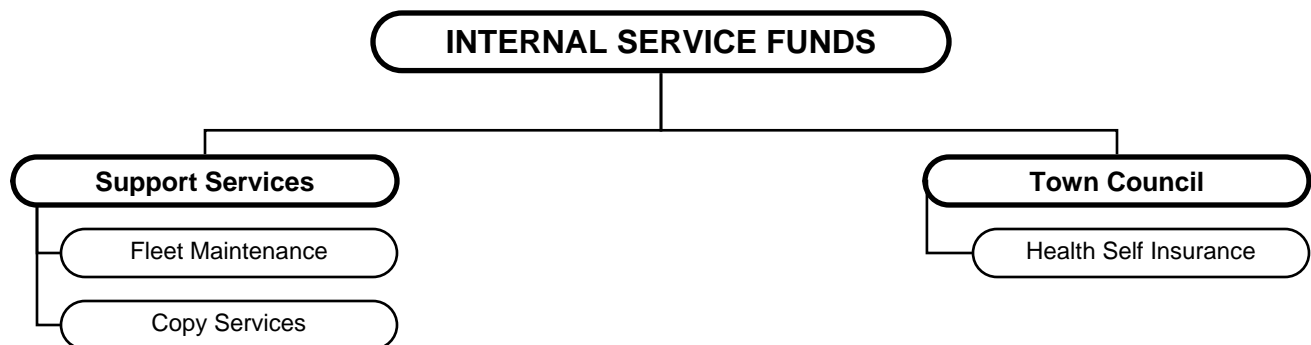

**Copy Services** replaces copiers as needed and pays for letterhead and envelope to allow for the best price, yet charge the cost to the user.

**Health Self Insurance** accounts for costs of health insurance. All contributions are deposited in this fund and claims are paid as approved by the Administrator. The Town of Gilbert Medical Plan was created July 1, 2003. The plan is self funded and administered by MMSI (Mayo).

**PURPOSE STATEMENT**

To provide superior vehicle and equipment maintenance, repair, acquisition, disposition and get ready in a cost effective manner while ensuring maximum availability for duty and extending vehicle life through proactive predictive preventive maintenance.

**ACCOMPLISHMENTS FY 2008**

- ◆ Implemented a new preventative maintenance program into GBA
- ◆ South Area Service Center facility is in full operation and working extended hours to accommodate our customers
- ◆ Parts control at North Area Service Center (NASC) and South Area Service Center (SASC) have improved with the hiring of three new parts technicians and using GBA to help streamline our inventory
- ◆ Fleet Maintenance has worked with the departments in the town with all of the new vehicles that are purchased

**OBJECTIVES FY 2009**

- ◆ Finalize state required emissions testing to be performed in-house at the North Area Service Center
- ◆ Configure new vehicle purchases by the vendor as required per department specifications prior to delivery
- ◆ Reduce parts inventory at both Fleet Maintenance Facilities (North Area Service Center 30% and South Area Service Center 30%)
- ◆ Review and improve on shop safety policies and procedures to reduce liability

**BUDGET NOTES**

Major increase in Supplies and Contractual include \$297,000 for fuel and \$62,000 for utilities at the South Area Service Center. Capital outlay includes two heavy duty lifts, heaters, and access door at the North Area Service Center.

## COST PER COPY

## **PURPOSE STATEMENT**

This fund provides financing for health insurance coverage provided through an Exclusive Provider Organization (EPO) network.

## **ACCOMPLISHMENTS FY 2008**

- ◆ Plan reserves increased in plan year 2008
- ◆ Reserve at the end of plan year 2008 meets targeted reserve goals set by the Board of Trustees
- ◆ Plan performance allowed a 2% increase to total premium in combination with higher copays

## **OBJECTIVES FY 2009**

- ◆ Maintain a reserve equivalent to 3 months of medical claims in excess of claims incurred but not reported
- ◆ Increased cost sharing with members in the form of higher co-pays and premium contributions

## **BUDGET NOTES**

Beginning FY 2009, the Town's contribution rate for medical premiums will change to a flat 80% contribution of total premium (both single and family coverage). Currently the Town contributes 100% of the premium for single coverage and 75% of the dependent portion of the family premium. This change in contribution amount will increase the cost of coverage to employees and reduce the cost of premium contributions to the Town.

***FUNDS DESCRIPTION***

---

Special Revenue Funds are a type of fund required to be established to account for a specific activity. The activities range from Redevelopment to Police Security. Each Fund is treated like a separate checkbook.

***FUND INFORMATION***

---

The individual division pages provide more detail regarding the funds in the Special Revenue group. Following is a brief description of each division page.

***Redevelopment*** – Financing for redevelopment is provided to accomplish the vision of a Downtown Heritage District as a unique retail destination reflecting Gilbert's agricultural history. This fund includes Commission expenses and property management. Land purchases and redevelopment capital projects are located in the Capital Improvement section of the budget document.

***CDBG/HOME*** – The activity for federally funded programs that provide affordable housing, fair housing, limited redevelopment, and limited social service activities is recorded in this fund.

***System Development Fees*** – Council has established a policy that growth will pay for itself. The system development fee funds provide the accounting for the revenue collected from building permits to pay for various infrastructure in the community that is required due to growth.

***Grants*** – The Grant fund provides information on all federal and state grant activity in Gilbert except those related to a specific capital project or the CDBG or HOME programs. All expenses related to a grant are found here. The portion of these expenses not funded with Grant revenue is financed with transfers from other Funds.

***Riparian*** – The Riparian preserve is a unique asset in the community. The Riparian Institute provides education and recreation experiences and also serves as a preservation area for wildlife and water recharge. The preserve is located next to the Southeast Regional Library. The intention is for the Institute to become self-sustaining.

***Special Districts*** – These districts are established under Arizona Statute to pay for street lights and parkway improvements in various areas of Gilbert.

***Other Agency*** – This category of funds includes a wide array of unique activities each required to be accounted for separately.

## ***PURPOSE STATEMENT***

The vision is for the Heritage District to become a unique destination that reflects Gilbert's agricultural and railroad history and attracts a distinct mix of retail, restaurant, office, service and entertainment uses that are a regional draw. The major emphasis of Gilbert's redevelopment program is to attract people generating uses that will stimulate growth and provide an identity for the area while re-vitalizing the Heritage District, which is the original commercial area of the community.

## ***ACCOMPLISHMENTS FY 2008***

- ◆ Completed painting of water tower
- ◆ Updated Heritage District Redevelopment Plan
- ◆ Finalized update of Redevelopment Plan Executive Summary
- ◆ Began development of the northwest corner of Gilbert and Vaughn Avenue
- ◆ Continued development of the Water Tower Park and the Western Powerline Trail Park
- ◆ Completed construction of Community Center

## ***OBJECTIVES FY 2009***

- ◆ Complete construction of Water Tower Park
- ◆ Complete construction of Western Powerline Trail Park
- ◆ Begin construction of Vaughn Avenue parking structure
- ◆ Finalize Heritage District Redevelopment Plan
- ◆ Develop master plan for area west of Gilbert Road and south of the Western Canal

## ***BUDGET NOTES***

The budget for this section is to cover miscellaneous issues related to property management of the Heritage District. A listing of the capital projects in the Heritage District can be found in the Capital Improvement section of the budget.

**PURPOSE STATEMENT**

The primary purpose of a system development fee (SDF) is to ensure that the cost of providing infrastructure to new development is paid for by new development and not by the existing community. SDF fee structure design reflects only those costs associated with facility or infrastructure expansion related to new growth.

---

**FEE DESCRIPTIONS**

Following are descriptions and fees effective August 11, 2008 for a typical single-family residential permit:

**Water System \$4,724**

The Water SDF is a charge against new development to cover the costs of expanding the water system necessary to serve new growth. The fee design includes additional treatment and storage facilities, distribution infrastructure and production wells. The model includes an assumption that the equivalent residential unit peak demand will be 656 gallons per day.

**Water Resources \$1,211**

The Water Resource SDF is a charge against new development to cover the costs of acquiring additional water resources necessary to serve new growth. The model includes an assumption that the equivalent residential unit demand annually will be 437 gallons per day.

**Wastewater System \$5,445**

The Wastewater SDF is a charge against new development to cover the costs of expanding the wastewater system necessary to serve new growth. The fee design includes additional collection infrastructure, treatment facilities, and expansion of the reuse system. The model includes an assumption that the equivalent residential unit generates 232 gallons per day of wastewater.

**Police Department \$615**

The Police Department SDF is a charge against new development to recover the Town's cost of providing facilities and equipment for police services required to serve new growth.

**Fire Department \$1,093**

The Fire Department SDF is a charge against new development to recover the cost of fire and emergency services facilities and equipment required to serve new growth.

**Traffic Signals \$415**

The Traffic Signal SDF is a charge against new development to cover the cost of expanding the traffic signal network. The fee design uses trip generation factors to calculate the number of signals required based on land use patterns.

**Parks and Recreation \$4,185**

The Parks and Recreation SDF is a charge against new development to recover the costs of expanding parks and recreation facilities, equipment and infrastructure to serve new growth. The fee only applies to residential development.

**General Government \$702**

The General Government SDF is a charge against new development to cover the cost of expanding Gilbert's administrative infrastructure, including Public Works, Courts, Prosecutor, Community Development, Libraries, etc. as required to serve new growth.

## COST PER TOURISM VISIT

---

**PURPOSE STATEMENT**

---

Special Districts are established to pay for specific statute allowed expenses. Gilbert has funds for parkway improvement districts, street light improvement districts and special assessment improvement districts. The revenue for these districts is either a levy amount on the property tax bill or a direct bill to the property owner based on the allocated cost of the improvement.

---

**FUND DESCRIPTIONS**

---

***Street Light Improvement Districts***

Gilbert uses Street Light Improvement Districts (SLID) to recover the electric costs of streetlights installed within subdivisions and business parks through the community. This is part of the established policy of assuring that growth pays its own way as development occurs within the community. There are currently approximately 330 SLIDs, and more are added annually.

The Council adopted a budget of \$1,413,420 and a levy of \$1,447,110. The levy is assessed to property tax parcels within each district based upon the relative value of each parcel.

***Parkway Improvement Districts***

Gilbert has eleven subdivisions which use a Parkway Maintenance Improvement District (PKID) for maintenance of their drainage, retention, and off-site improvements. All other subdivisions approved since 1983 meet this maintenance obligation through Homeowner's Associations.

The costs of each PKID are recovered through special assessments which are levied on a per lot basis each year.

Gilbert has historically provided the levels of service sought by the neighborhoods. Recent improvements include: wall painting; play area improvements, and increased chemical treatments. The districts are in the process of developing revised landscape plans.

The amount levied is \$869,780. The anticipated expenditures are \$1,091,430. The levy is based on prior year collections and adjustments for budget to actual expenses for prior years.

**PURPOSE STATEMENT**

Arizona Law, A.R.S. 28-3511 requires the mandatory tow and 30 day impound of vehicles when the driver commits specific civil traffic and criminal traffic offenses. Under the law anyone of interest in the vehicle may request a hearing for the release of it.

During the hearings it will be up to the hearing coordinator to determine if the vehicle was towed properly and if not, facilitate the release immediately without cost to the owner. In some situations, vehicles are eligible for early release. If the vehicle is not eligible, a hearing is still required to get the vehicle back after the 30 day impound. A \$150 administration fee will be collected upon every vehicle release and placed into the vehicle impound fund to cover employee and related equipment costs

**ACCOMPLISHMENTS FY 2008**

- ◆ Successfully used light duty personnel to act as tow hearing officers when needed
- ◆ Hired two full time Tow Hearing Coordinators
- ◆ Identified and equipped office space to be used by hearing staff

**OBJECTIVES FY 2009**

- ◆ Conduct fair and proper hearings
- ◆ Assist in training departmental employees and provide updates on law changes

**BUDGET NOTES**

In October 2007, Council authorized the creation of a new Special Revenue Fund for towing fees and revenues as required by State law. As a result of the new State law, Gilbert was able to increase the administrative fee of \$60 per hearing to \$150 per hearing. This administrative fee must be deposited into a special fund to administer the towing programs. This fund should be self-sustaining in recovering costs to support two authorized positions and all related expenses.

**FUNDS DESCRIPTION**

---

Replacement Funds are savings accounts for replacement of rolling stock, equipment or infrastructure. Gilbert established replacement funds to account for the use of the assets over time and to reduce the intergenerational inequities of future generations replacing the infrastructure “used up” by the previous generation. If no funds were available for replacement, substantial fee increases might be necessary and/or debt issued which increases the cost of replacement by the cost of interest and related debt issuance costs. The Council decided to fund the Replacement Funds for the replacement value of rolling stock and equipment in FY 2006. The intent of this decision was the amount deposited in the replacement fund in addition to the residual value of the vehicle sold would be sufficient to purchase a replacement vehicle.

---

**FUND INFORMATION**

---

**General Fund Equipment Replacement** – The General Fund cost centers make contributions to the General Fund Equipment Replacement fund based on the useful life of the rolling stock and equipment. Future rolling stock and equipment replacements will be purchased through this fund. Gilbert established the General Fund Equipment Replacement fund in FY 2002. Due to budget constraints for FY 2009, it was determined not to fund the General Fund Equipment Replacement for FY 2008 and FY 2009. Not funding this fund for two fiscal years, saved the General Fund \$8,600,000. The transfer to the General Fund Equipment Replacement fund is modeled to begin again in FY 2010.

**Street Equipment Replacement** – The Street Fund cost centers make contributions to the Street Fund Replacement fund based on the useful life of the rolling stock and equipment. Future rolling stock and equipment replacements will be purchased through this fund. Gilbert established the Street Equipment Replacement fund in FY 2002.

**Water Repair and Replacement** – Gilbert established a Water Repair and Replacement Fund in FY 2004 to annually set aside the cost of using assets over the life of the assets. It is the intention to use this funding in the future to replace infrastructure that benefits the community as a whole such as wells, larger diameters water mains, reservoirs and treatment facilities. The Water Repair and Replacement Fund includes a fleet replacement component.

**Wastewater Repair and Replacement** – Gilbert established a Wastewater Repair and Replacement Fund in FY 2004 to annually set aside the cost of using assets over the life of the assets. It is the intention to use this funding in the future to replacement infrastructure that benefits the community as a whole such as lift stations, larger diameters wastewater mains, reclaimed water reservoirs and wastewater treatment facilities.

**Residential Solid Waste Equipment Replacement** – As solid waste equipment is used a portion of the cost of replacement is set aside in this fund to finance the future replacement. This structure evens out the cash flow in the operating fund and provides better cost of services information upon which to base user fees.

**Commercial Solid Waste Equipment Replacement** – As solid waste equipment is used a portion of the cost of replacement is set aside in this fund to finance the future replacement. This structure evens out the cash flow in the operating fund and provides better cost of services information upon which to base user fees.

**Fleet Equipment Replacement** – Fleet Maintenance charges internal customers for service rendered. A portion of this internal charge includes funding for replacement of the fuel and oil system. The funding is then transferred to the Fleet Equipment Replacement for future replacement of the fuel and oil systems.

The anticipated fund balance as of July 2009 for each replacement fund is listed below.

<b>Fund</b>	<b>Fund Balance</b>
<b>General</b>	\$ 8,887,205
<b>Street</b>	5,398,976

The following pages detail the Capital Improvement Projects for Fiscal Year 2008-09 by category.

## Improvement Districts

### New Districts

Allowance of \$100,000,000 for potential expenditures for new improvement districts. Since Arizona Statutes do not permit increasing the budget once adopted, Gilbert adopts an amount for potential improvement districts so the process is not slowed by budget constraints. Also included is \$11,921,910 for Improvement District No. 20 infrastructure improvements to the 160 acres located at the northeast corner of Germann and Val Vista.

<b>2008-09 Expenditures</b>	\$111,863,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding</b>		Contractual Services	\$13,000
Special Assessment Bonds	\$113,500,000		
<b>Total Project Cost</b>	\$113,500,000		

## Streets

### Scalloped Streets - East

Complete roadways adjacent to existing County island residential areas to full width improvements. Projects include: south side of Guadalupe from Higley to 172<sup>nd</sup>; Recker from Baseline to Houston; south side of Baseline from 172<sup>nd</sup> to RWCD Canal and west side of Higley from Pecos to Frye.

<b>2008-09 Expenditures</b>	\$1,836,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		Contractual Services	\$75,000
City of Mesa	\$4,160,000	Utilities	\$8,000
<b>Total Project Cost</b>	\$18,787,000		

### Greenfield Road – Pecos to Germann

Construct the west half of Greenfield from Germann to Lexington to a minor arterial standard. The project will be a ¾ mile segment with four lanes and a striped median.

<b>2008-09 Expenditures</b>	\$1,000,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		Contractual Services	\$50,000
Bonds	\$13,233,000	Utilities	\$5,000
<b>Total Project Cost</b>	\$14,394,000		

### Higley and Williams Field Improvements

Improvements on Higley from Williams Field north to the Union Pacific Railroad and south of Williams Field for 660 feet (west half). Also includes improvements on Williams Field from 1,300 feet west of Higley to the UPRR. Improvements will be to a major arterial standard and will include six lanes with a raised landscaped median, bike lanes, street lighting and sidewalks.

<b>2008-09 Expenditures</b>	\$7,825,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		Contractual Services	\$45,000
Bonds	\$14,795,000	Utilities	\$5,000
<b>Total Project Cost</b>	\$14,841,000		

### Chandler Heights Road – Val Vista to Greenfield

Complete roadway to full width improvements for a major arterial from Val Vista to Rockwell Street. Improvements include a six lane section with raised median, landscaping, bike lanes, sidewalks and street lighting. Includes widening the bridge over the East Maricopa Floodway. Also includes a 16-inch waterline from Val Vista to Greenfield.

<b>2008-09 Expenditures</b>	\$800,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		Contractual Services	\$75,000
Bonds	\$15,760,000	Utilities	\$8,000
<b>Total Project Cost</b>	\$16,572,000		

### Queen Creek Road Improvements

Design and construction of improvements to Queen Creek from Val Vista to the RWCD Canal and East Maricopa Floodway to minor arterial standards including four lanes, striped median, bike lanes, sidewalks, landscaping, and street lights.

<b>2008-09 Expenditures</b>	\$1,050,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		Contractual Services	\$59,000
Bonds	\$12,121,000	Utilities	\$6,000
<b>Total Project Cost</b>	\$12,121,000		

### Greenfield Road – Arrowhead Trail North

Design and construction of 2,840' of minor arterial street improvements on Greenfield north of Arrowhead Trail along the Greenfield Wastewater Reclamation Plant property. Improvements will include four lanes with a striped median, bike lanes, sidewalk, landscaping and street lights.

<b>2008-09 Expenditures</b>	\$3,047,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		Contractual Services	\$28,000
Town of Queen Creek	\$223,000	Utilities	\$3,000
City of Mesa	\$508,000		
Street Fund	\$2,316,000		
<b>Total Project Cost</b>	\$4,029,000		

### Power and Pecos – UPRR Crossing

Construction of street and railroad improvements at the intersection of Power and the UPRR railroad. Improvements will widen this intersection to a major arterial roadway.

<b>2008-09 Expenditures</b>	\$6,141,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		Contractual Services	\$3,000
Signal SDF	\$278,000		
City of Mesa	\$1,181,000		
Street Fund	\$1,625,000		
Maricopa County	\$1,009,000		
Miscellaneous	\$400,000		
<b>Total Project Cost</b>	\$7,181,000		

### Proposition 400 Intersection Phase I

Intersection improvements at Cooper and Warner, to accommodate dual left-turn lanes in all four directions.

<b>2008-09 Expenditures</b>	\$4,900,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		Contractual Services	\$13,000
Bonds	\$3,378,000	Utilities	\$1,000
State Funds	\$1,054,000		
<b>Total Project Cost</b>	\$6,960,000		

### Williams Field Road – UPRR to Power

Complete Williams Field Road improvements from Union Pacific Railroad to Power and Recker Road, improvements from Ray Road to UPRR to major arterial standards, including six lanes with a raised landscaped median, bike lanes, landscaping, street lights and sidewalks.

<b>2008-09 Expenditures</b>	\$26,665,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		Contractual Services	\$81,000
Bonds	\$54,947,000	Utilities	\$8,000
<b>Total Project Cost</b>	\$54,947,000		

### Recker Road – 660' to 1320' North of Ray

Complete Recker Road improvements adjacent to existing county island on the west side of Recker Road to minor arterial standards.

<b>2008-09 Expenditures</b>	\$1,501,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		Contractual Services	\$6,000
State Grant	\$1,501,000	Utilities	\$1,000
<b>Total Project Cost</b>	<b>\$1,519,000</b>		

### Higley Road – EMF to 1,370' North

Complete Higley Road improvements from the bridge over the East Maricopa Floodway and Roosevelt Water Conservation District canal to 1,370' north. Higley is a six major arterial with a raised median, bike lanes, sidewalks, landscaping and streetlights.

<b>2008-09 Expenditures</b>	\$7,160,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		Contractual Services	\$12,000
Bonds	\$7,916,000	Utilities	\$1,000
<b>Total Project Cost</b>	<b>\$7,916,000</b>		

### Higley Road – Riggs to Hunt Highway

Complete Higley Road improvements from Riggs to the Hunt Highway. Higley is a six lane major arterial with a raised median, bike lanes, sidewalks, landscaping and streetlights.

<b>2008-09 Expenditures</b>	\$400,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		Contractual Services	\$40,000
Bonds	\$4,792,000	Utilities	\$4,000
<b>Total Project Cost</b>	<b>\$7,842,000</b>		

### Riggs Road – Val Vista to Recker

Complete Riggs Road improvements from Val Vista to Recker. Riggs is a six lane major arterial with a raised median, bike lanes, sidewalks, landscaping and streetlights.

<b>2008-09 Expenditures</b>	\$17,208,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		Contractual Services	\$100,000
Bonds	\$18,488,000	Utilities	\$10,000
Signal SDF	\$248,000		
<b>Total Project Cost</b>	<b>\$18,898,000</b>		

### Greenfield Road – Queen Creek to Lonesome Lane

Complete Greenfield Road improvements from Queen Creek to Lonesome Lane. Greenfield is a minor arterial with four traffic lanes and a striped median, bike lanes, landscaping, sidewalk and street lights..

<b>2008-09 Expenditures</b>	\$560,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		Contractual Services	\$50,000
Bonds	\$11,113,000	Utilities	\$6,000
<b>Total Project Cost</b>	<b>\$12,813,000</b>		

### Ocotillo Road – Recker to Power

Design and construction of Ocotillo from Recker to Power. Ocotillo is a minor arterial with four traffic lanes and a striped median, bike lanes, landscaping sidewalks, and street lights.

<b>2008-09 Expenditures</b>	\$540,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		Contractual Services	\$35,000
None	\$0	Utilities	\$3,500
<b>Total Project Cost</b>	<b>\$2,938,000</b>		

---

**Proposition 400 Road Improvements Phase I**

Complete Power Road improvements from Galveston to Pecos. Power is a major arterial street with six lanes and a raised median, bike lanes, sidewalks, landscaping and streetlights.

<b>2008-09 Expenditures</b>	\$1,680,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		Contractual Services	\$175,000
Bonds	\$6,833,000	Utilities	\$15,000
<b>Total Project Cost</b>	<b>\$24,644,000</b>		

---

**Realigned Greenfield – Lonesome Lane to Chandler Heights**

Realignment of approximately 700 feet of Greenfield north of Chandler Heights to the west. Realignment will allow for improved sight distance at the intersection of Greenfield and Chandler Heights.

<b>2008-09 Expenditures</b>	\$984,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		Contractual Services	\$7,000
Street Fund	\$984,000	Utilities	\$1,000
<b>Total Project Cost</b>	<b>\$1,564,000</b>		

---

**Improvement District No. 20**

Infrastructure improvements to the 160 acres located at the northeast corner of Germann and Val Vista, to include roadways, water, sewer, reclaimed lines and related items.

<b>2008-09 Expenditures</b>	\$11,863,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		Contractual Services	\$13,000
Improvement District	\$13,500,000		
<b>Total Project Cost</b>	<b>\$13,500,000</b>		

---

**Lindsay Road – Spur to Appleby**

Complete roadway to full width improvements for a minor arterial. Improvements include a four lane section with striped median, landscaping, bike lanes, sidewalks and street lighting.

<b>2008-09 Expenditures</b>	\$190,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		Contractual Services	\$8,000
Bonds	\$2,978,000	Utilities	\$1,500
<b>Total Project Cost</b>	<b>\$2,978,000</b>		

---

**PM10 Paving**

This project consists of paving various unpaved streets within the Town for compliance with air quality requirements. The streets included in this project are to be identified by the Public Works Department.

<b>2008-09 Expenditures</b>	\$300,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding:</b>		No maintenance costs associated with this project.	
Street Fund	\$300,000		
<b>Total Project Cost</b>	<b>\$1,200,000</b>		

---

**Germann Road – Gilbert High School #5**

Widening of approximately 350 feet of the north half of Germann Road at the northeast corner of 148<sup>th</sup> Street and Germann. Germann is a six lane major arterial roadway. Improvements include three lanes, raised median, bike lane, landscaping, sidewalk and street lights.

<b>2008-09 Expenditures</b>	\$335,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		Contractual Services	\$3,000
Street Fund	\$335,000		
<b>Total Project Cost</b>	<b>\$335,000</b>		

**Val Vista Drive – Germann to Queen Creek**

Design and construct widening of one mile of major arterial street to include six lanes, raised landscaped median, bike lanes, curb and gutter, sidewalk landscaping and street lights on Val vista Drive from Germann to Queen Creek.

<b>2008-09 Expenditures</b>	\$5,774,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		Contractual Services	\$63,000
Bonds	\$6,374,000	Utilities	\$7,000
<b>Total Project Cost</b>	\$6,374,000		

**Traffic Control****Arterial Intersection Signal Program**

Arterial intersection traffic signals to be constructed annually at the one mile intersections in the community, based upon traffic engineering needs analysis. Average cost is approximately \$300,000 per intersection. Based on studies, this allows for approximately 12 additional arterial intersections until build out. Number of signals authorized reduced by one from adopted CIP due to budget constraints.

<b>2008-09 Expenditures</b>	\$600,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		Supplies	\$4,000
Signal SDF	\$600,000	Utilities	\$4,000
<b>Total Project Cost</b>	\$3,300,000		

**Minor Intersection Signal Program**

Three minor intersection traffic signals to be constructed annually in the community, based upon traffic engineering needs analysis. Average cost is approximately \$248,000 per intersection. Based on studies, this allows for approximately 125 additional minor intersections until build out. Number of signals authorized reduced by one from adopted CIP due to budget constraints.

<b>2008-09 Expenditures</b>	\$496,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		Supplies	\$2,000
Signal SDF	\$496,000	Utilities	\$4,000
<b>Total Project Cost</b>	\$30,504,000		

**Elliot and General Dynamics**

Design and installation of a minor arterial traffic signal at Elliot and General Dynamics and connecting to the signal system.

<b>2008-09 Expenditures</b>	\$233,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		Supplies	\$1,000
Signal SDF	\$233,000	Utilities	\$2,000
<b>Total Project Cost</b>	\$258,000		

**Germann and Gilbert High School #5**

Design and installation of a minor arterial signal at the intersection of Germann and Entrance #1 into the new Gilbert High School #5.

<b>2008-09 Expenditures</b>	\$210,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		Supplies	\$1,000
Gilbert Public Schools	\$210,000	Utilities	\$2,000
<b>Total Project Cost</b>	\$210,000		

**Germann and Quartz**

Design and installation of a minor arterial traffic signal at the intersection of Germann and Quartz, which will serve as the second entrance to the new Gilbert High School #5.

<b>2008-09 Expenditures</b>	\$248,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		Supplies	\$1,000
Signal SDF	\$248,000	Utilities	\$2,000
<b>Total Project Cost</b>	\$248,000		

**Val Vista and Warner Signal Improvements**

Convert left turn lanes in all four directions of travel to dual left turn lanes. Work includes modification to pavement markings, new signal heads, new pole foundations and sidewalk ramps on the southeast and southwest corners, and new concrete pole aprons and detectable mats on all four corners.

<b>2008-09 Expenditures</b>	\$115,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		No maintenance costs associated with this project.	
Street Fund	\$115,000		
<b>Total Project Cost</b>	\$115,000		

**Val Vista and Baseline Signal Improvements**

Convert northbound and southbound left turn lanes to dual left turn lanes. Work includes modification to pavement markings and the raised median island on the south leg of the intersection, new signal heads, new signal poles and sidewalk ramps on the southeast and southwest corners, and new concrete pole aprons and detectable mats on all four corners.

<b>2008-09 Expenditures</b>	\$165,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		No maintenance costs associated with this project.	
Street Fund	\$165,000		
<b>Total Project Cost</b>	\$165,000		

**Elliot and Islands Drive**

Design and construction of the remaining leg of the minor arterial traffic signal at Elliot and Islands Drive.

<b>2008-09 Expenditures</b>	\$72,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		No maintenance costs associated with this project.	
Signal SDF	\$72,000		
<b>Total Project Cost</b>	\$72,000		

**Redevelopment****West Washington Street Assemblage**

Acquisition and assemblage of property along west Washington Street in downtown Gilbert between Gilbert Road and Ash Street.

<b>2008-09 Expenditures</b>	\$250,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		No maintenance costs associated with this project.	
General Fund	\$250,000		
<b>Total Project Cost</b>	\$1,395,000		

### Ash Street Extension

Collector street to be located west of Gilbert between Juniper and the Union Pacific Railroad. The purpose of the project is to improve access to the commercial area west of Gilbert.

<b>2008-09 Expenditures</b>	\$2,907,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		Contractual Services	\$15,000
General Fund	\$350,000		
Bonds	\$2,415,000		
<b>Total Project Cost</b>	\$2,931,000		

### Water Tower Preservation

Paint and make minor structural repairs to the Tower located at Page and Ash in the Heritage District. Also included in this project is the development of a plaza/landscaped area on the tower property.

<b>2008-09 Expenditures</b>	\$2,550,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		Contractual Services	\$4,000
MPC Bonds	\$2,779,000	Supplies	\$2,000
<b>Total Project Cost</b>	\$3,500,000	Utilities	\$1,000
		Insurance	\$1,000

### Heritage District Pedestrian Improvements

Improvements to sidewalks within the Heritage District business corridor.

<b>2008-09 Expenditures</b>	\$1,405,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		Contractual Services	\$2,000
Federal Grant	\$1,135,000		
General Fund	\$270,000		
<b>Total Project Cost</b>	\$1,570,000		

### Vaughn Avenue Parking Structure

Design and construction of a structured parking facility located near Vaughn and Ash on the north side of Vaughn in support of the restaurant and entertainment uses developing in the Heritage District. Garage is planned for 350 spaces in a 3-story structure with restroom facilities and surrounding surface parking.

<b>2008-09 Expenditures</b>	\$3,510,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		Contractual Services	\$50,000
MPC Bonds	\$6,671,000		
Developer Contribution	\$50,000		
<b>Total Project Cost</b>	\$7,020,000		

## Municipal Facilities

### Telecommunications Upgrade

Improvements include and upgrade to a consolidated phone switch and service expansion to the new Public Safety Complex on the Municipal Center Campus. A carryforward of \$114,000 from FY 2008 is included in the FY 2009 expenditures.

<b>2008-09 Expenditures</b>	\$514,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		Contractual Services	\$10,000
General Fund	\$514,000		
<b>Total Project Cost</b>	\$961,000		

---

**Imaging Technology Phase II**

This project continues implementation of imaging technology throughout the organization for records retention.

<b>2008-09 Expenditures</b>	\$500,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		Contractual Services	\$50,000
General Fund	\$500,000	Supplies	\$12,500
<b>Total Project Cost</b>	<b>\$750,000</b>		

---

**Spectra Radio Upgrade**

Replacement of Motorola Spectra 800MHz radios installed in Gilbert police patrol vehicles with Motorola XTL-5000 radios.

<b>2008-09 Expenditures</b>	\$702,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		No maintenance costs associated with this project.	
General Fund	\$702,000		
<b>Total Project Cost</b>	<b>\$702,000</b>		

---

**Utility Billing Replacement**

Replace the current utility billing software system to meet the demands of an increased customer base.

<b>2008-09 Expenditures</b>	\$300,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		Contractual Services	\$140,000
Solid Waste Fund	\$96,000		
Water Fund	\$106,000		
Wastewater Fund	\$98,000		
<b>Total Project Cost</b>	<b>\$1,500,000</b>		

---

**Fire Station Emergency Signals**

Construction of traffic control signals at each fire station. A station merits installation of a signal when traffic volume or speed increases and prohibits safe entry by emergency vehicles onto the arterial roadway. Cost shown in FY 2009 is for Fire Station10.

<b>2008-09 Expenditures</b>	\$189,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		Supplies	\$1,000
Fire SDF	\$189,000	Utilities	\$1,000
<b>Total Project Cost</b>	<b>\$1,941,000</b>		

---

**Fire Hydrant Installations**

Design and installation of fire hydrants and minor water system improvements to subdivisions currently served by Gilbert's water distribution system and annexing into Gilbert.

<b>2008-09 Expenditures</b>	\$2,549,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		No maintenance costs associated with this project.	
General Fund	\$832,000		
Miscellaneous	\$1,717,000		
<b>Total Project Cost</b>	<b>\$6,852,000</b>		

## Water

### Direct System Wells

Installation of two 2.0 MGD direct system wells and one replacement well. Wells will be located in the system where required by demand. Includes 2,800 feet of 16" water line to connect wells to the distribution system.

<b>2008-09 Expenditures</b>	\$6,950,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		Contractual Services	\$9,750
Water Fund	\$2,417,000	Supplies	\$36,750
Water SDF	\$4,533,000	Utilities	\$157,500
<b>Total Project Cost</b>	\$11,450,000	Insurance	\$3,000

### CAP Pipeline

Design and construction of 13 miles of 48" pipeline from the CAP Canal to the South Water Treatment Plant along the Queen Creek Road and Ocotillo Road alignments.

<b>2008-09 Expenditures</b>	\$14,888,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		Contractual Services	\$7,000
City of Chandler	\$6,444,000	Insurance	\$3,000
<b>Total Project Cost</b>	\$44,544,000		

### Well, 2mg Reservoir and Pump Station

Design and construct a 2.0 MGD well, 2 million gallon in ground reservoir, and pump station located at Williams Field and Recker.

<b>2008-09 Expenditures</b>	\$1,143,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		Contractual Services	\$5,000
Water SDF	\$1,143,000	Supplies	\$44,000
<b>Total Project Cost</b>	\$12,444,000	Utilities	\$68,000
		Insurance	\$2,000

### Recker and Baseline 16" Water Main

Installation of a 16" waterline in Recker from Baseline to Houston. This project also includes the installation of a 16" waterline in Baseline from Higley to Recker to complete a system loop.

<b>2008-09 Expenditures</b>	\$500,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		Contractual Services	\$1,000
Water Fund	\$250,000		
Wastewater SDF	\$250,000		
<b>Total Project Cost</b>	\$1,111,000		

### South Water Treatment Plant (SWTP) Phase I

The 40 acre site for the SWTP is located on the south side of Ocotillo ½ mile east of Higley. Phase I will treat 24 MGD and Phase II will expand the plant to an ultimate capacity of 48 MGD. Gilbert will have 12 MGD of capacity in each phase. The plant will be built as a joint facility with the City of Chandler.

<b>2008-09 Expenditures</b>	\$41,679,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		Personnel	\$787,000

		Utilities	\$860,000
		Insurance	\$76,000
		<b>Annual Operating Revenue</b>	
		City of Chandler	\$1,300,000

## Ocotillo Road Water Mains

Install a 24" water main in Ocotillo from Higley to Greenfield and a 16" water main in Ocotillo from Greenfield to Val Vista to serve Zone 2 of Gilbert's water distribution system. Install City of Chandler 36" water main in Ocotillo from Higley to Gilbert to supply water from the South Water Treatment Plant to Chandler's water distribution system.

<b>2008-09 Expenditures</b>	\$876,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		Contractual Services	\$3,000
City of Chandler	\$692,000		
Water SDF	\$184,000		
<b>Total Project Cost</b>	\$17,945,000		

## Ocotillo Road Water Mains

Install a 20" water main in Ocotillo from Higley to Recker and a 36" water main in Ocotillo from the South Water Treatment Plant (SWTP) to Higley. The 20" main will serve Zone 3 of the Gilbert's water distribution system and the 36" main will serve Zone 2. Install City of Chandler 36" water main in Ocotillo from the SWTP to Higley to supply water from the SWTP to Chandler's water distribution system.

<b>2008-09 Expenditures</b>	\$301,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		Contractual Services	\$1,000
Water SDF	\$301,000		
<b>Total Project Cost</b>	\$4,847,000		

## Water Rights

Acquisition of water rights (lease) for 17,886 acre-feet of surface water from the Central Arizona Project (CAP).

<b>2008-09 Expenditures</b>	\$62,601,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		No maintenance costs associated with this project.	
MPC Bonds	\$32,500,000		
Water Resource SDF	\$30,101,000		
<b>Total Project Cost</b>	\$62,601,000		

## Well, Reservoir and Pump Station

Design and construct a 2.0 MGD well, 2 million gallon in ground reservoir, and pump station. This facility will be located at Ray and Recker.

<b>2008-09 Expenditures</b>	\$1,500,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		Contractual Services	\$13,000
Water SDF	\$1,500,000	Supplies	\$15,000
<b>Total Project Cost</b>	\$12,199,000	Utilities	\$40,000

## Reservoir, Pump Station and Well Conversion

Design and construction of a 2 million gallon in ground reservoir and pump station, and conversion of a direct system well to reservoir feed well. Includes 3,600 feet of 12-inch waterline and 2,000 feet of 16-inch waterline. Funding for FY 2009 is for land purchase only.

<b>2008-09 Expenditures</b>	\$1,030,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		Contractual Services	\$13,500
Water SDF	\$1,030,000	Supplies	\$19,000
<b>Total Project Cost</b>	\$10,841,000	Utilities	\$75,000
		Insurance	\$1,500

**Meadows 12" Water Main**

Design and construction of a 12 inch water main from Meadows east in the Houston Avenue alignment to the RWCD Canal right-of-way and south to Guadalupe.

<b>2008-09 Expenditures</b>	\$1,255,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		Contractual Services	\$1,000
Water Fund	\$1,255,000		
<b>Total Project Cost</b>	<b>\$1,423,000</b>		

**Zone 2 to Zone 4 Interconnect**

Installation of valves and piping to tie back-feed into Turner Ranch Reservoir into Zone 2 of the water distribution system. This will allow Zone 4 to utilize CAP water which is off-project.

<b>2008-09 Expenditures</b>	\$730,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		Contractual Services	\$1,000
Water SDF	\$730,000		
<b>Total Project Cost</b>	<b>\$730,000</b>		

**Higley Road 16" Water Main**

Design and construction of a 16" water main in Higley from Guadalupe to Banner Drive.

<b>2008-09 Expenditures</b>	\$2,241,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		Contractual Services	\$1,000
Water SDF	\$2,241,000		
<b>Total Project Cost</b>	<b>\$2,391,000</b>		

**Direct System Well**

Installation of one 2.0 MGD direct system well. Well will be located in the system where required by demand. Funding for FY09 is for land purchase only.

<b>2008-09 Expenditures</b>	\$250,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		Contractual Services	\$3,250
Water SDF	\$250,000	Supplies	\$12,250
<b>Total Project Cost</b>	<b>\$3,750,000</b>	Utilities	\$52,500
		Insurance	\$1,000

**Reservoir #12 Roof Replacement**

Replacement of rolled seamed metal roof at Reservoir #12 located at the Lindsay Road Public Works facility.

<b>2008-09 Expenditures</b>	\$500,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		No maintenance costs associated with this project.	
Water Fund	\$500,000		
<b>Total Project Cost</b>	<b>\$513,000</b>		

**Reservoir #5 Rehabilitation**

Reservoir #5 is an above ground steel tank installed in 1985. This project will conduct an inspection of the tank and recommend possible rehabilitation measures, which may include recoating the inside and outside of the tank as well as installation of a cathodic protection system.

<b>2008-09 Expenditures</b>	\$250,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		No maintenance costs associated with this project.	
Water Fund	\$250,000		
<b>Total Project Cost</b>	<b>\$263,000</b>		

### Reservoir #7 Rehabilitation

Reservoir #7 is an above ground steel tank installed in 1985. This project will conduct an inspection of the tank and recommend possible rehabilitation measures, which may include structural bracing replacements, recoating the inside and outside of the tank as well as installation of a cathodic protection system, or complete replacement of the tank.

<b>2008-09 Expenditures</b>	\$1,000,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		No maintenance costs associated with this project.	
Water Fund	\$1,000,000		
<b>Total Project Cost</b>	\$1,013,000		

### Williams Field Road Water Main

Design and construction of a 16" water main in Williams Field Road from the 20" main crossing beneath the Santan Freeway at Greenfield to a 30" main in Higley.

<b>2008-09 Expenditures</b>	\$502,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		Contractual Services	\$1,000
Water SDF	\$502,000		
<b>Total Project Cost</b>	\$992,000		

### Western Canal Water Main

Design and construction of a 20" water main along the Western Canal from a stub out on the west side of Cooper to a main in McQueen.

<b>2008-09 Expenditures</b>	\$345,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		Contractual Services	\$1,000
Water SDF	\$345,000		
<b>Total Project Cost</b>	\$2,106,000		

### Direct System Well

Design and construction of a 2.0 MGD direct system well. This project is located at Germann and Val Vista.

<b>2008-09 Expenditures</b>	\$3,500,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		Contractual Services	\$3,250
None	\$0	Supplies	\$12,250
<b>Total Project Cost</b>	\$3,710,000	Utilities	\$52,500
		Insurance	\$1,000

### Direct System Well

Design and construction of a 2.0 MGD direct system well. Project includes ½ mile of 16-inch waterline to connect to existing line in Val Vista Drive. Funding for FY09 is for land purchase only.

<b>2008-09 Expenditures</b>	\$250,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		No maintenance costs associated with this project.	
Water SDF	\$250,000		
<b>Total Project Cost</b>	\$4,100,000		

## Wastewater

### Reclaimed Water Injection Wells

Construction of five one million gallon per day reclaimed water vadose zone injection wells with associated monitor well and piping to recharge reclaimed water. These wells are required to alleviate restrictions in transmission system and will also be used to provide daily and seasonal storage of reclaimed water.

<b>2008-09 Expenditures</b>	\$204,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		Contractual Services	\$3,000
Wastewater SDF	\$204,000	Supplies	\$1,000
<b>Total Project Cost</b>	<b>\$1,279,000</b>		

### Reclaimed Water Valve Stations

Design and construction of three pressure reducing valve stations to establish two pressure zones in the reclaimed water system.

<b>2008-09 Expenditures</b>	\$720,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		Contractual Services	\$2,000
None	\$0	Supplies	\$2,000
<b>Total Project Cost</b>	<b>\$930,000</b>		

### Candlewood 12" Force Main

12" sewer force main from the Candlewood Lift Station to the Gilbert Commons Lift Station to equalize flows to the Neely Wastewater Reclamation Plant.

<b>2008-09 Expenditures</b>	\$1,650,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		Contractual Services	\$2,000
None	\$0	Supplies	\$1,000
<b>Total Project Cost</b>	<b>\$6,206,000</b>		

### Greenfield 12" Reclaimed Water Main

Install a 12" reclaimed water main in Greenfield from Ocotillo to Chandler Heights.

<b>2008-09 Expenditures</b>	\$1,345,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		Contractual Services	\$5,000
None	\$0	Supplies	\$2,000
<b>Total Project Cost</b>	<b>\$1,427,000</b>		

### Baseline 12" Sewer – Claiborne to Greenfield

Installation of a 12" sewer in Baseline from Claiborne to Greenfield and the replacement of an existing 10" sewer in Greenfield from Baseline to Houston with a 12" sewer. This is to provide sewer service to the area west of Higley and north of Baseline.

<b>2008-09 Expenditures</b>	\$2,037,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		Contractual Services	\$1,000
Wastewater Fund	\$2,037,000	Supplies	\$1,000
<b>Total Project Cost</b>	<b>\$2,229,000</b>		

### Islands Lift Station Force Main Rehabilitation

Remove and replace approximately 1,000 feet of 18" sewer, install air relief valves at various locations and make minor modifications to the Islands Lift Station.

<b>2008-09 Expenditures</b>	\$1,162,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		Contractual Services	\$3,000
Wastewater Fund	\$1,162,000		
<b>Total Project Cost</b>	<b>\$1,924,000</b>		

---

**Relief Sewers**

Design and construction of parallel relief sewers to support the wastewater collection system. Project includes 8" sewer in Cooper from Country Estates Avenue to the Candlewood Lift Station, 8" sewer in Warner from the Eastern Canal to Coronado and an 8" sewer in Val Vista from Elliot to the powerline corridor.

<b>2008-09 Expenditures</b>	\$423,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		Contractual Services	\$4,000
Wastewater Fund	\$423,000		
<b>Total Project Cost</b>	<b>\$3,597,000</b>		

---

**Candlewood Lift Station**

Expansion of the Candlewood Lift Station to accommodate future flows per the Water Resources Master Plan. Project will include expansion of the existing wet well, new pumps, and electrical upgrades.

<b>2008-09 Expenditures</b>	\$1,332,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		Supplies	\$1,000
None	\$0	Utilities	\$1,000
<b>Total Project Cost</b>	<b>\$4,180,000</b>		

---

**Reclaimed Water Recovery Well**

Conversion of an irrigation well to a reclaimed water recovery well to provide irrigation water to development near the northwest corner of Ray and Higley.

<b>2008-09 Expenditures</b>	\$50,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		Contractual Services	\$2,000
Wastewater Fund	\$50,000		
<b>Total Project Cost</b>	<b>\$350,000</b>		

---

**Santan Lift Station Odor Control Conversion**

Design and construction of the abandonment of the Santan lift station and its conversion to an odor control injection facility. This project includes approximately one-quarter mile of 8-inch gravity sewer line from the site to Higley and north to Pecos.

<b>2008-09 Expenditures</b>	\$505,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		Contractual Services	\$1,000
Wastewater Fund	\$505,000		
<b>Total Project Cost</b>	<b>\$505,000</b>		

---

**Reclaimed Water Reservoir Rehabilitation**

This project will conduct an inspection of two reclaimed water reservoirs and recommend possible rehabilitation measures, which may include recoating the inside and outside of the tanks as well as installation of a cathodic protection system.

<b>2008-09 Expenditures</b>	\$175,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		No maintenance costs associated with this project.	
Wastewater Fund	\$175,000		
<b>Total Project Cost</b>	<b>\$185,000</b>		

---

**GWRP Carbon Source Addition**

Design and construction of an additional carbon source for operational reliability and to meet regulatory requirements.

<b>2008-09 Expenditures</b>	\$108,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		No maintenance costs associated with this project.	
Wastewater Fund	\$108,000		
<b>Total Project Cost</b>	<b>\$108,000</b>		

## Storm Water

### Commerce Avenue Basin

Design and construction of storm water improvements, recommended in the drainage study completed for the areas along Commerce Avenue east of Cooper Road along Cooper Road, to prevent flooding of Commerce Avenue and Cooper Road.

<b>2008-09 Expenditures</b>	\$1,047,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		Contractual Services	\$1,000
General Fund	\$1,047,000		
<b>Total Project Cost</b>	\$1,089,000		

## Parks and Recreation

### Field Lighting Project

Provide lighting of fields for selected Gilbert, Higley and Chandler schools. This project is designed to provide additional lighted playing fields for the team sports through joint utilization efforts.

<b>2008-09 Expenditures</b>	\$701,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		No maintenance costs associated with this project.	
None	\$0		
<b>Total Project Cost</b>	\$3,400,000		

### Santan Vista Trail Phase I

Multi-modal Canal trail improvements along the Eastern Canal from Baseline south to Germann. Phase I includes improvements from Baseline to Warner to include landscaping, irrigation, concrete pathway, rest areas, lighting, interpretive kiosks and signage.

<b>2008-09 Expenditures</b>	\$1,907,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		Contractual Services	\$5,000
Federal Grant	\$1,654,000	Utilities	\$1,000
Parks SDF	\$253,000	Insurance	\$3,000
<b>Total Project Cost</b>	\$4,011,000		

### Crossroads Park NE Expansion

Master plan for the additional 12 acres east of the original park construction (south of Knox). This project will complete the parking, hardscape, and landscaping related to development of Polar Ice facility.

<b>2008-09 Expenditures</b>	\$453,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		Contractual Services	\$30,000
Developer Contribution	\$453,000	Supplies	\$2,000
<b>Total Project Cost</b>	\$4,124,000	Utilities	\$10,000
		Insurance	\$1,000

### Crossroads Park West Bank Stabilization

Develop approach to remedy the on-going erosion of the basin slope at the west bank of Crossroads Lake. Erosion of the earthen slope deposits soil, vegetation and debris into the lake, impacting water quality and the lake's ecosystem. Stabilize the slope to include the backfilling of fissures and terracing or other measures to retain soil and plant material. Funding in FY 2009 is for study only.

<b>2008-09 Expenditures</b>	\$30,000	<b>Annual Maintenance</b>	
<b>2008-09 Funding Sources</b>		Supplies	\$5,000
General Fund	\$30,000		
<b>Total Project Cost</b>	\$515,000		

**Special Events Center**

Design and construction of a special events center located on 80 acres within Gilbert at a site to be determined. Funding for FY 2009 is for land purchase only. Construction date for center is yet to be determined.

**2008-09 Expenditures** \$27,878,000

**2008-09 Funding Sources**

MPC Bonds \$17,878,000

Bonds \$10,000,000

**Total Project Cost** \$37,878,000

**Annual Maintenance**

No maintenance costs associated with this project.

---

**Powerline Trail Drainage at Holiday Farms**

Grading and drainage improvements along the Powerline Trail adjacent to the Holiday Farms subdivision to prevent damage to the landscaping, walls and retention basins after rainfall.

**2008-09 Expenditures** \$155,000

**2008-09 Funding Sources**

General Fund \$155,000

**Total Project Cost** \$155,000

**Annual Maintenance**

No maintenance costs associated with this project.

---

**Chandler Heights Basin – Phase I**

Design and construction of a 30,000 square foot recreation center, indoor pool, multi-use fields, sport courts, parking, lighting, landscaping, etc. on the 44 acres located north of the Chandler Heights Basin. Funding for FY09 is for land purchase only. Construction date for center is yet to be determined.

**2008-09 Expenditures** \$15,333,000

**2008-09 Funding Sources**

MPC Bonds \$15,333,000

**Total Project Cost** \$43,130,000

**Annual Maintenance**

No maintenance costs associated with this project.

2007/2008	2,370,221,717	61.6%	27,257,550
2008/2009	2,768,391,194	16.8%	31,836,500

The average annual valuation growth of 21.8% in the community combined with solid debt planning has allowed the Town to keep the same property tax rate for 17 years prior to FY 2002 and to decrease the rate to \$1.15 per \$100 in secondary assessed valuation for FY 2003. Debt planning for the next five years is predicated on maintaining the \$1.15 rate. The 61.6% increase in FY 2008 is reflective of property value increases by the County Assessors office driven by market increases and new construction.

**Secondary Assessed Value**

The Arizona Constitution and State Statute limits Gilbert's bonded debt capacity to certain percentages of Gilbert's secondary assessed valuation by the type of project to be constructed.

There is a limit of 20% of secondary assessed valuation for projects involving streets, water, sewer, artificial lighting, parks, open space and recreational facility improvements.

There is a limit of 6% of secondary assessed valuation for any other general-purpose project.

Voter authorization is required before General Obligation Bonds can be issued. In 2001 a Citizens Bond Committee recommended the Council forward to the voters a bond authorization election in the amount of \$57,481,000. The Council approved this action and the bond authorization election was successful. In May, 2003 the voters approved general obligation bonds in the amount of \$80,000,000 to pay for street construction and in March, 2006 voters approved \$75,000,000 for street improvements and \$10,000,000 for parks and recreation facilities. In November, 2007 voters approved \$174,000,000 for street improvements. The following table outlines the remaining authorization for each voter approved election.

<u>Election Date</u>	<u>Authorized</u>	<u>Issued</u>	<u>Remaining 20%</u>
November, 2001	\$ 57,481,000	\$ 45,722,000	\$ 11,759,000

The last General Obligation Bond Sale occurred in September, 2005. A sale is scheduled in July, 2008 for \$187,990,000. Moody's rated the 2008 issue at Aa2 which was an upgrade of the prior rating of Aa3.

The table below shows the legal bonding limit for General Obligation bonds as of July 2, 2008.

Gilbert defeased \$12,505,000 in General Obligation Bonds in May, 2008 eliminating several of the FY 2009 debt payments. Gilbert is planning a General Obligation Issue of \$187,990,000 in July, 2008 resulting in a larger than normal contingency.

**Street and Highway User Revenue Bonds** are special revenue bonds issued specifically for the purpose of constructing street and highway projects. The bonds are secured by gas tax revenues collected by the State and distributed to municipalities throughout the State based on a formula of population and gas sales within the county of origin. These bonds are limited by the amount of HURF revenue received from the State. The annual total debt service must not exceed one-half of the annual HURF revenues received.

The following table illustrates the debt service as a percent of anticipated revenue. In FY 2012 the state shared revenue is anticipated to increase as a result of the 2010 Census.

Year	HURF Revenue	Debt Service	% coverage
FY 2009	12,566,520	3,301,060	26%
FY 2010	12,943,520	3,323,560	26%
FY 2011	13,331,830	3,314,810	25%
FY 2012	15,104,960	3,326,060	22%
FY 2013	15,558,110	3,331,060	21%

**Water and Wastewater Revenue Bonds** are issued to finance construction of water and wastewater facilities. The debt is repaid through user fees. The voters must approve the bonds. The amount of debt issued is limited by the revenue source to repay the debt.

**Water Resources and Public Facilities Municipal Property Corporation Bonds** are issued by non-profit corporations created by Gilbert as a financing mechanism for the purpose of funding the construction or acquisition of capital improvement projects. The Municipal Property Corporation is governed by a board of directors consisting of citizens from the community appointed by the Council. These bonds may be issued without voter approval. Water Resources issues are split into two funds based on the revenue source for debt repayment. There is a debt fund for Water projects and a debt fund for Wastewater projects.

**Improvement District Bonds** are generally issued to pay debt used to finance construction in a designated area within Gilbert. The property owners must agree to be assessed for the repayment of the costs of constructing improvements that benefit the owner's property. Gilbert is ultimately responsible for the repayment of the debt if the property owner does not pay.

The Town currently has one Improvement District bond issue outstanding in the amount of \$2,990,000.

The following table indicates the principal amount of debt paid annually by type of debt.
